REPORT ON THE MEETINGS OF THE EXECUTIVE COMMITTEE

The Executive Committee and its sub-committees met in Paris from May 3 to 7, followed by meetings of the Research Coordinating Committee and the Research Council. Since the weather was cold and rainy, the distractions of Paris were less tempting and we managed to deal with a very long agenda. The following matters should be of general interest, we hope.

VIIIth World Congress:

The report of the Travel Grants Committee was approved and a motion was passed thanking our Canadian and American colleagues for having raised a record amount of travel funds (final revised total: \$41,687.00). It was suggested that a Travel Grants Committee for the next World Congress be established as soon as possible. The final report of the Canadian Local Arrangements Committee was presented by Harry Nishio and accepted. It showed a balance of \$3,000.00 which will be equally divided between the ISA and the Canadian Sociology and Anthropology Association.

Financial Statements and Budget:

The statements presented by Guido Martinotti and Kurt Jonassohn were approved. During a discussion of the financial position of the ISA, the Membership and Finance Committee recommended that no travel grants be given by the ISA as a matter of principle. The majority opposed this as a principle, although accepting the practice of not paying travel costs as a matter of current necessity. Various methods of obtaining outside travel support were discussed.

Membership:

The Membership and Finance Committee reported on its review of collective members. Fifteen such members were dropped either because they have not paid dues for several years, have ceased to exist, or have requested such action. Those who have not paid dues since 1973 will be on probation. Fourteen new applications were approved, and several others were tabled due to insufficient information supplied. The next NEWSLETTER (Fall 1975) will contain an up-to-date listing of collective members of the ISA.

To help maintain better contact with members and to assist in encouraging new members to join, the following people were nominated to become Associate Members of the Membership and Finance Committee:

Manuel Castels
Harry K. Nishio
Issam El-Zaim
Erwin Scheuch
Z. Sufin

Publications:

As previously reported, the Transactions of the World Congresses have been discontinued and are being replaced by a series of topical volumes published by Sage Publications. The official title of the new series is *SAGE STUDIES IN INTERNATIONAL SOCIOLOGY*. For details of the first volumes to appear this fall, see page 12. The Editorial Board, represented by its Chairman Guido Martinotti, presented a long list of volumes in preparation and was thanked for its rapid work in getting this series launched.

CURRENT SOCIOLOGY is still having problems, although four numbers have so far appeared this year. It was agreed not to renew the contract with Mouton, and also to sign a contract with Sage Publications. For further details, see page 12. It was also decided to make changes in the composition of the Editorial Board of Current Sociology to make it more representative; the new Board will be approved by mail later this year.

Regional Meetings:

Several suggestions were received for holding regional meetings. It was felt that regional meetings should have priority in those regions where they could play a role in promoting sociological teaching and research; that they should have themes related to that of the IX World Congress; and that arrangements for these meetings should be in the hands of local groups. It was decided to hold a regional meeting in Cuba in 1976 and in Cairo in 1977. The other suggestions will be taken up next year. Considerable discussion was devoted to finances and valuable advice was contributed by Sammy Friedman on the technicalities and procedures involved in applying for UNESCO funds.

Executive Meetings:

M. Rutkevich extended an invitation to hold the 1976 meeting of the Executive Committee in Moscow. This was accepted with thanks and the dates were fixed as May 26-28, 1976. U. Himmelstrand proposed that the Program Committee for the IX World Congress meet in Uppsala before the Executive meeting in Moscow and this too was accepted.

M. Sokolowska proposed that the Executive meet in Warsaw in 1977. This was agreed and the Program Committee will again meet in Uppsala just before the meeting of the Executive Committee.

The Research Council was scheduled to meet the next time in 1977. The details of time and place will be decided later.

RESEARCH COUNCIL AND RESEARCH COMMITTEES

MEETING OF THE RESEARCH COUNCIL ON MAY 8 AND 9

The last meeting of the Research Council took place in Paris at Reid Hall on May 8 and 9. 25 out of the 31 Research Committees were represented. The delegates of the Research Council elected Alain Touraine, Vice-President of the ISA, as the Chairman of the Research Council.

Vice-President Alain Touraine and Mr. J. Ziolkowski from UNESCO

On the recommendation of the members of the Research Coordinating Committee, the members of the Executive Committee accepted three new Research Committees out of 16 applications. These Committees, welcomed by the Research Council, are the following:

No. 11 SOCIOLOGY OF AGING

represented by H.Orbach, Kansas University, USA

No. 29 DEVIANCE AND SOCIAL CONTROL

represented by J. Hackler, Univ. of Alberta, Canada

No. 34 SOCIOLOGY OF YOUTH

represented by O.Badina, Rumanian Academy.

A very important discussion took place among the delegates on the subject of guidelines and rules of procedures for the recognition of new Research Committees and the review of existing Research Committees, and the following resolution was adopted:

Procedures to be adopted in dealing with applications for recognition as Research Committees and for review of continuation of existing Research Committees:

1. A group of scholars applying to form a Research Committee will be notified that:
 - (a) it will have to be prepared to satisfy the following criteria:
 - (i) that it represents a major research area either existing or emerging in sociology;
 - (ii) that it is not limited in regard to approach;
 - (iii) that its membership is international (at present this is interpreted in accordance with Article XI, sub-section 4, to mean at least 25 members from 5 or more countries);
 - (iv) that it can demonstrate continuing activity and vitality.
 - (b) it will be required to give two years' advance notice of its intention to apply for recognition by the ISA
 - (c) after the two years specified in (b) above, it will have to show evidence of satisfactory activity during the intervening two years

- (d) it may then at the discretion of the Research Coordinating Committee be recommended to the Executive Committee as a Working Group and receive institutional recognition and approval by the ISA of the same nature as that accorded to Research Committees for two years or until the next international congress. It will not be entitled to representation on the Research Council but will be entitled to receive an invitation to send an Observer to meetings of the Research Council.
- (e) at the next international congress, it will disband as a Working Group. If it wishes its activities to continue, it will be required to meet with representatives of Research Committees designated by the Research Coordinating Committee to work out recommendations whose aim will be to accommodate the needs of the new group without increasing the total number of Research Committees. The outcome of these discussions will be reported to the Research Council which will decide whether to accept their recommendations. Only where no other solution appears practicable and where the need is established beyond doubt will the Research Council accept a recommendation to increase the total number of Research Committees.

2. A major review of the existing Research Committees will be initiated by the Research Coordinating Committee and reported to the Research Council at the International Congress in 1978. The criteria which will be applied in considering the claim of a Research Committee for continuation will be the same as those which new applications are required to satisfy under 1(a) above, together with the requirements that they have been able to establish a broad international base and that they can show evidence of their adherence to the democratic procedures of election of officers and Board as laid down in the Statutes of the Association.

A decision was also made on the financing of the Research Committees, as follows:

Provided the ISA has the necessary funds, \$2,000 will be put aside to finance the activities of the 34 Research Committees. As the ISA has to assume the expenses of the meetings of the Executive Committee, the Research Council and the Program Committee, Research Committees will send their applications to the Research Coordinating Committee and will be eligible for a grant once in a four-year period, provided the Research Coordinating Committee accepts their application. An upper limit of \$500 was fixed for each grant. The Research Coordinating Committee will be entirely responsible as to the final decision.

Two motions were adopted concerning the representation of various categories of researchers in the committees:

First motion:

No more than two members of the Board of each Research Committee should be from the same country.

The above motion will be moved as a recommendation to the Council.

Second motion:

That the Research Council recommends to its constituent Research Committees and to the Executive Committee that in the process of nominations and elections of members and officers, strong efforts should be made to achieve a regional balance in the composition of the Research Committees, of the Research Council and of the Executive Committee.

As it is known that an obstacle to the election of Research Council delegates from the Third World is a lack of funds for their travel expenses, the Research Council also proposes that a special fund is constituted for this purpose from a voluntary annual contribution from each Research Committee.

Publication of the NEWSLETTER

Three issues will be published each year on the following dates:

- February 1
- July 15
- November 1

Cooperation with UNESCO

Mr. J. Ziolkowski from the Department of Social Sciences of UNESCO attended part of the meeting of the Research Council. He reported on the various projects of the ISSC and UNESCO in which individual sociologists or research committees could participate. He proposed a concrete project which UNESCO wishes to commission the Research Council to undertake: *A project for the clarification of concepts in the social sciences: the critical re-examination of the conceptual framework in the social sciences in different parts of the world.*

Note to Research Committees: If your Committee is interested in working on this project, you should contact A. Abdel-Malek (address on front page) or J. Linz (address on page 7). Within the next five years, UNESCO will be interested in the following areas:

- (i) International development of social sciences;
- (ii) Large program dealing with information and documentation in the social sciences;
- (iii) Application of the social sciences to various major problems of the world;
- (iv) Methods and tools of the social sciences in various areas.

If you wish to obtain additional information on the Participation Program of UNESCO, please contact Mr. J. Ziolkowski of UNESCO or Dr. S. Friedman of the International Social Sciences Council, UNESCO, 1 rue Miollis, Paris 75015.

A Program Committee is actively seeking researchers in the area from Senegal to Zaire, who have either papers or proposals to present. Members are reminded that CFR never pays travel expenses and sometimes cannot subsidize hotel costs of those invited to give papers. This seminar will bring together researchers in anthropology, demography and sociology from both francophone and anglophone regions. It will be an exciting occasion, the first ISA activity in Africa. All are welcome.
3. The editor of the CFR Gazette has learned unofficially that plans for 1976 may possibly include a seminar in Athens, Georgia, as well as a world-congress in Teheran, Iran. As soon as definite plans are made, they will be announced to all members.

Statement sent to the ISA by Jan Trost:

At a business meeting of the Group for Family Research at Uppsala University on November 28 the following set of statements was taken and it was decided that the statements should be sent to the ISA:

2. We urge that mechanisms be developed to change this situation,

Activities:

In Toronto, at the VIII World Congress, took place the first business meeting of the new Sex Roles Committee. It was very well attended and many members met each other for the first time. It was agreed to hold elections between congresses to optimize continuity of activity between meetings. The following decisions were made on future activities:

Publications:

Three different types of publication stemming from session papers were agreed upon:

1. A collection of papers on Sex Roles and Social Policy aimed at an academic and policy-making audience, as part of the ISA Congress publication series. Jean Lipman-Blumen (National Institute of Education) and Jessie Bernard (Honoris Cause, Pennsylvania State University) will edit this and see it through publication.
2. A Symposium issue of a journal such as the International Journal of Social Science on women's roles in honor of International Women's Year, to contain our best theoretical articles for that issue. Andrée Michel (Maître de Recherche, CNRS, France) will take editorial responsibility.
3. Prepare a "popular" book on women's roles drawing on a variety of comparative studies giving a picture of women in different parts of the world, but using a well-thought out conceptual framework to make the most out of the more theoretical aspects of the research reported in each case. This book will take the most rewriting of existing papers. Margrit Eichler (University of Waterloo, Canada) has agreed to take editorial responsibility for this book.

International Women's Year Project:

The business meeting established a Working Group on Indicators of the Status of Women, which in the coming year will be particularly directed toward making contributions to International Women's Year (IWY). This Working Group will be chaired by Janet Giele (Senior Fellow, Radcliffe Institute, USA) and will consist of two subgroups:

Subgroup A - Data Collection

- 1) Establishing a complete listing of all international data currently being collected by the United Nations and other agencies, that includes sex breakdowns;

- 2) Developing a listing of all cross-national data being collected by private investigators; and
- 3) Developing an assessment of adequacy of amount of data available by sex categories, and a recommendation to the United Nations and other agencies as to the data they should collect by sex category in the future, that is not now compiled in this way.

Shirley Nuss has already completed No. 1) above for the use of the Committee and for the Commission on the Status of Women. In Boulder we are currently at work adding all UN data on women to our international data bank in order to prepare background regional reports on the status of women for the Commission. Janet Giele is currently contacting researchers specializing in data archives or specializing in women's data, and it is hoped to have a data assessment meeting sometime in the spring, bringing all the identified groups together.

Subgroup B - Indicator Conceptualization

This group will deal with the twin problems of:

- 1) what do we need to know that we do not now know in order to evaluate progress in the participation of women in society, i.e. what new categories of data should be collected?

and
- 2) how can we creatively combine categories of information already available about women to generate new insights into the position of women?

A REMINDER

ADMINISTRATIVE CHANGE CONCERNING MEMBERSHIP IN RESEARCH COMMITTEES

Up to the present, the Secretariat has collected the membership fees for the Research Committees. With the increasing number of Research Committees, this has become a very complicated procedure. For example, if a Research Committee Board decided not to accept a member, then the Secretariat had to refund the fee to the applicant. In many cases, the postage and the bank charges for this processing exceeded the amount of the fee.

As of 1975, a new system will be used for dealing with Research Committee memberships. The ISA membership form will contain a list of Research Committees; applicants will check those committees that they wish to join; the Secretariat will forward their names to the respective Research Committees; but no money will be required at this stage.

After the Board of a Research Committee has decided which applicants to accept for membership, its Secretary will communicate direct with the applicant. If he/she has been accepted, he/she will be billed for the membership fee direct by each Research Committee.

Each number contains a Trend Report on the topic indicated by the title. This is written either in English or in French (the two official languages of the ISA) and is always accompanied by a summary in the other language. These Trend Reports are followed by a classified and often annotated bibliography on the topic.

Chaque numéro contient une Tendence Actuelle traitant d'un domaine indiqué dans le titre, et est publié soit en anglais, soit en français (les deux langues officielles de l'AIS). Les Tendances Actuelles sont suivies d'un sommaire dans la seconde langue, et sont toujours accompagnées d'une bibliographie classifiée et souvent commentée.

CURRENT SOCIOLOGY/LA SOCIOLOGIE CONTEMPORAINE

The Executive Committee, at its meeting on May 5-7 in Paris has discussed the problems that were encountered during the past few years in publishing CURRENT SOCIOLOGY with Mouton Publishers, and has decided to terminate the contract with them. The effective date of the termination of this contract will be August 31, 1976. Mouton will publish volumes XXII (1974) and XXIII (1975) before the end of 1976. The new publisher of CURRENT SOCIOLOGY will be Sage Publications and orders for volume XXIV (1976) should be sent to them as of now.

Note, however, that members of the ISA will not be affected by this change, since their orders are handled through the Secretariat.

Mouton has now completed the publication of Volumes XX and XXI and we trust that members and subscribers are receiving these numbers now. The Executive Committee hopes that the publication backlog of CURRENT SOCIOLOGY will have been caught up with next year and that we shall remain "current" from 1977 onward.

REMINDER: Non-member subscribers to CURRENT SOCIOLOGY should send their orders and payments to Sage Publications beginning with Volume XXIV (1976).

Le Comité Exécutif, lors de sa réunion du 5 mai à Paris, discuta des problèmes qui existent depuis plusieurs années avec la maison Mouton au sujet de la publication de LA SOCIOLOGIE CONTEMPORAINE. Il prit la décision de terminer le contrat avec cette maison d'éditions à partir du 31 août 1976. Mouton a entrepris de publier les volumes XXII (1974) et XXIII (1975) avant la fin de l'année 1976. Le nouvel éditeur de LA SOCIOLOGIE CONTEMPORAINE sera la maison d'éditions Sage, et les commandes pour le volume XXIV (1976) peuvent leur être envoyées directement dès maintenant.

Il est à noter que les membres de l'AIS ne seront pas touchés par ce changement, vu que leurs commandes sont gérées par le Secrétariat.

Les volumes XX et XXI ont été publiés et, d'après nos dernières informations, toutes les commandes de ces volumes sont en voie d'être exécutées. Le Comité Exécutif espère que d'ici l'an prochain, il n'y aura plus aucun volume en retard, et qu'à partir de 1977, chaque volume paraîtra périodiquement.

N.B: Les abonnés à cette revue qui ne sont pas membres de l'AIS devront envoyer leurs commandes ainsi que leurs paiements à partir du Vol. XXIV (1976) directement à la maison d'éditions Sage.
