

# ISA XVI International Laboratory for PhD Students in Sociology

Santiago de Compostela/A Coruña  
(Spain)

9th– 13th September 2019

# “Mobility and Social Inequalities in a Globalized World”

Globalisation has been accompanied by a growing interest in the study of mobilities, understood in its broadest sense (bodies, objects, virtual, communicative and imaginative), with some scholars referring to the Mobility Turn (Urry, 2007). These mobilities – their causes and consequences, as well as their meanings, constructs and regulations, lie at the centre of the configuration of societies on a world scale. Furthermore, globalization has sparked a debate into the emergence and increase in new forms of inequalities among societies (gender, race, class, age, ethnicity, and nationality), due to the supranational spatial integration of economies and societies and unequal market flows. The PhD lab will focus on the intersection between mobilities and social inequalities in a globalized world.

The Laboratory includes a series of lectures delivered by leading sociologists from Spain and the international community. However, the core of the programme are presentations by the students of their own work and subsequent discussion by students and faculty of the work. The theme for this Laboratory has been conceived in broad terms, and students' research may focus on or be related in a variety of ways.

The XVIth ISA International Laboratory for PhD Students in Sociology is organised jointly by ISA, the Spanish Federation of Sociology (FES) and the International Migration Sociology Team at the University of A Coruña (ESOMI), with the collaboration of the Sociology Department at the University of Santiago de Compostela, as well as the Department of Sociology and Communication Sciences, the Faculty of Sociology and the PHD Programme on Social and Behavioral Sciences at the University of A Coruña (UDC).

## Pre-arrival

### **Welcome to Santiago de Compostela!**

Here a few things to keep in mind:

- Galicia is known by its unpredictable weather. Temperatures in September usually range between 12 and 23 Celsius degrees (53-77 Fahrenheit), so you should expect chilly nights and warm afternoons. Rain is considered a form of art in Santiago, so get ready for it!
- Bring comfortable clothing and shoes! There will be some walking around the city.
- If you have any questions about what to bring, do not hesitate to ask us! We'll gladly help you getting ready for the visit.

## PACKING TIPS

Umbrella and/or raincoat, rain-adapted footwear.

In Spain the two-pin continental plugs are used, as elsewhere in Europe. Bring an adapter if you need it!

We recommend bringing only the medication that you need. Common medicines such as analgesics or flu tablets are easy to get in Spain, and there are many pharmacies around our city.

Comfortable shoes: we'll do some walking tours, and once you get here you'll want to walk around the city!

Sunscreen lotion. When the rain passes it gets pretty sunny!

## LANGUAGES TO GO

Galicia is culturally diverse. You will hear two languages when walking around: Spanish and Galician. Learn some words before you arrive to communicate with the locals!

# GETTING HERE

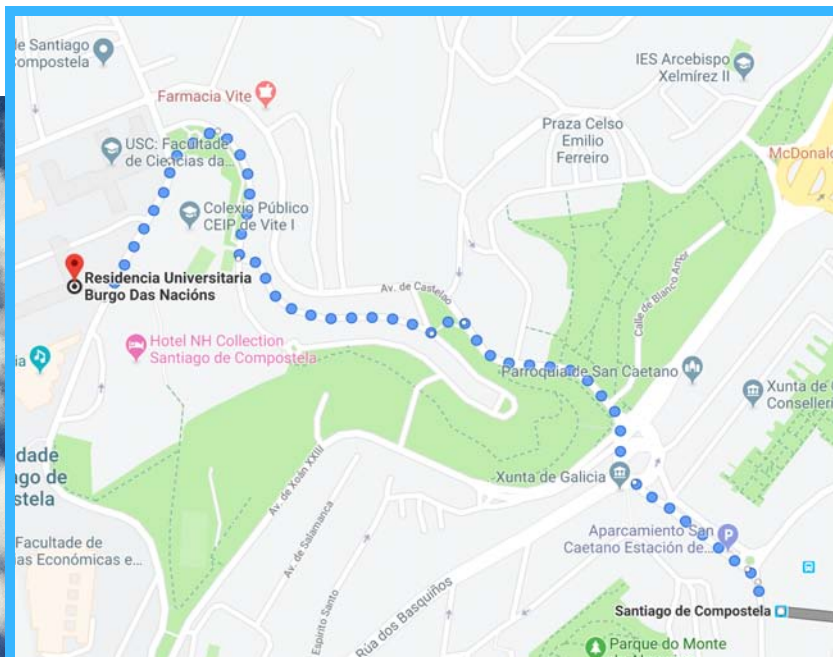

## BY BUS

### Santiago de Compostela Airport (SCQ)

You will land in Santiago de Compostela Airport the 8th of September. Every half hour a bus (**Empresa Freire**) departs from Santiago de Compostela Airport to 'Plaza de Galicia' in the inner city and vice versa. Buses run every day of the week from 6 am til 1 am.

They make several stops, including bus station '**Estación de Autobuses**' **northeast of the city centre. Thats your stop!** Tickets will cost you 3€ one way, or 5.10€ for a round ticket, and it will take around 20 minutes to get to the Estación de Autobuses. From there, **it takes about 15 minutes walking** to your accommodation, the Burgo das Nacións Hall, as you can see in the map.

## BY TAXI

Alternatively, you could just take a taxi. The ride has a **fixed price of 21€**, and if you arrive with other participants you can always split the cost of it.

# Accommodation

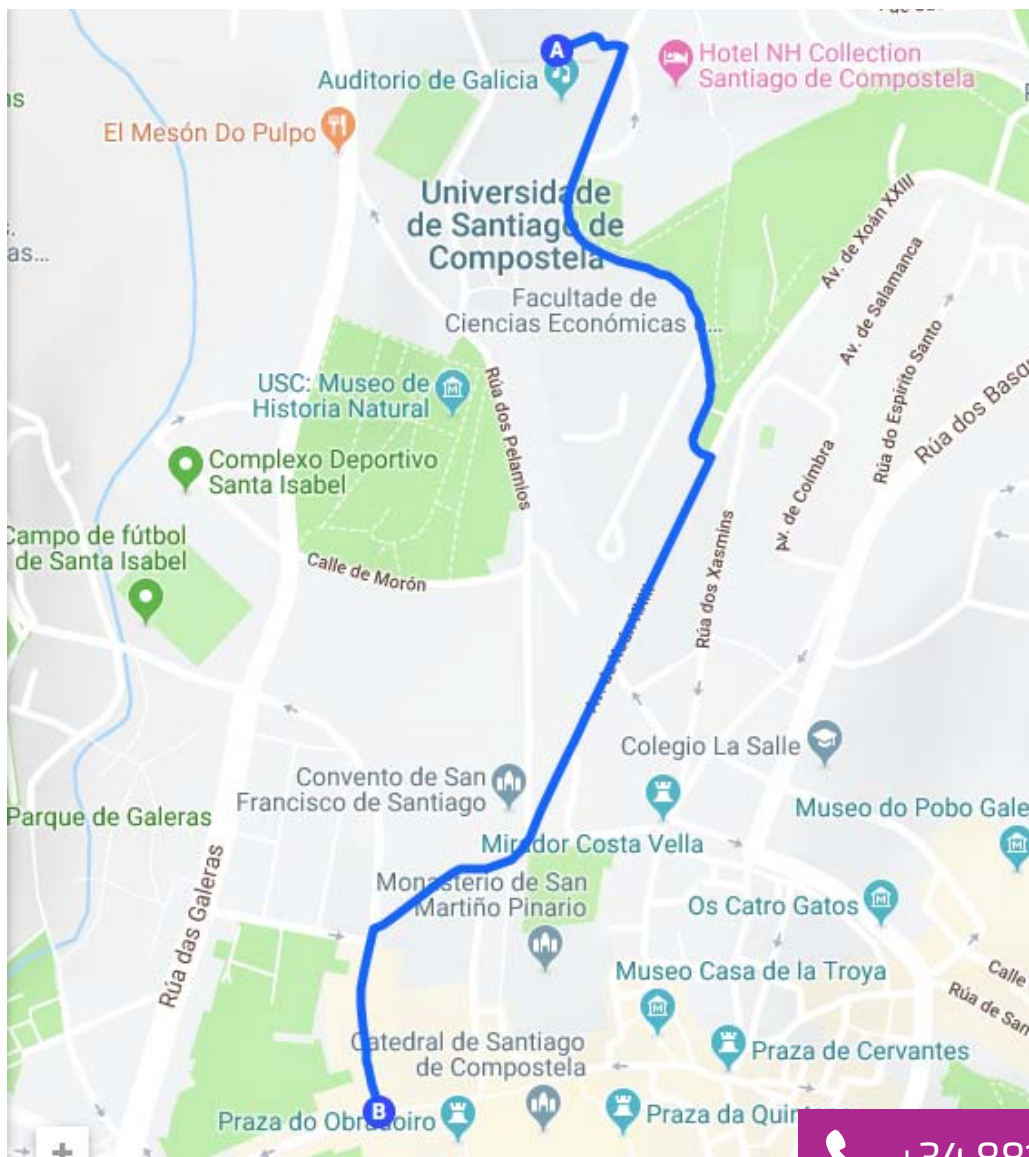

## Burgo das Nacións Hall

*[Av. do Burgo das Nacións, s/n, 15782 Santiago de Compostela, A Coruña]*

This Hall is located at the North Campus (Campus Norte) about 500 metres from the historical centre. It will take you around 17 minutes to walk from your accommodation (A) to the venue where we'll conduct the PhD Lab (B).

In the surrounding area you will find the faculties of Philology, Economics and Business Administration, and Communication Sciences, and also the Auditorium of Galicia.

The building occupies part of the so called "Burgo das Nacións" university complex, which was built provisionally in 1965 to provide shelter to pilgrims coming to Compostela during that Holy Jacobean year.

# Consello da Cultura Galega

**The PhD Lab will be conducted at the Consello da Cultura Galega, the Galician Culture Council (CCG).**

The Consello da Cultura Galega is a public institution dependent on the Autonomous Government of Galicia, founded to promote and hold academic, research and cultural activities (as well as the dissemination of Galician cultural values). Since its creation in 1983, it has hosted numerous congresses, seminars, conferences and exhibitions of a very varied nature, providing it with an immense capacity and potential as a space for sharing know-how and knowledge. It has organised events in various fields, such as history, art, anthropology, philosophy, sociology and literature. The Consello da Cultura Galega also edits journals, working documents and reports and has a large documentary collection. It also plays a key role in promoting the events and activities it hosts.

## FACILITIES

### Auditorium

Capacity: 100 people. The facilities include a PA system, audio and audiovisual recording amenities, projector and computer with Internet connection.

### Library

Capacity: 30 people. It is the place where most of the sessions will take place. The facilities include a PA system with audio recording, projector and computer with Internet connection.

## THE VENUE

The Consello da Cultura Galega is housed in the historic Pazo de Raxoi, (Plaza do Obradoiro), the city's most emblematic site, as the Cathedral of Santiago de Compostela is just opposite. The library and the auditorium overlook this monument.

## SANTIAGO DE COMPOSTELA

Santiago de Compostela (included on the UNESCO World Heritage List since 1985) is synonymous to mobility and exchange. The city's sociological interest is unquestionable, because of its idiosyncrasy as a **hospitable pilgrimage city**, overflowing with culture and knowledge. Its monasteries, temples, palaces, ancient streets and traditional popular architecture, together with its cultural significance, make it a unique city to host the ISA XVI International Laboratory for PhD Students in Sociology.

Compostela has been called the '**Cosmopolitan City of the Middle Ages**'. The discovery of the tomb of the Apostle Santiago, at the beginning of the 9th century, gave rise to a place of worship in the confines of the Iberian Peninsula. For more than a thousand years it has been a crossroad, an arrival and meeting point, marking the end of a pilgrimage route that dates back a thousand years: the Camino de Santiago, which since the 9th century has transformed this "Finisterrae" or 'Land's End' into a meeting place for western thought. A primitive route, which followed in the wake of the Milky Way, connecting the Iberian Peninsula with the rest of the continent. Much of the significance of this city stems from the movement of thousands of pilgrims that visit the city during the course of the year (in 2017 the number stood at 301,000), driven by spiritual, religious or cultural reasons.

## WHAT TO SEE

Santiago is an incredibly beautiful city. Just wandering around the Historical Center is enough to spend a few hours in awe. We'll give you some ideas about places to visit in case you don't know where to start:

- The Cathedral of Santiago de Compostela
- Cathedral Museum
- Alameda park
- Bonaval Gardens
- San Francisco Convent
- San Martiño Pinario
- Museo do pobo Galego

Or even the tiny Salomé Church, where you'll find one of the few existent pregnant Virgin Marys, an angel wearing glasses and other peculiarities.

Santiago de Compostela is also known as home to one of the **oldest universities in Europe**, founded in 1495. The facilities at the University of Santiago de Compostela (USC) – which include research institutes, university residences, sports fields, cultural spaces and libraries- are resources for more than 30,000 students and many of them continue to be housed in historical buildings, such as the History Library or the Faculty of Medicine.

# EATING DURING THE LAB

Vegetarian options will be available for lunch and dinner, please remind us if you have any special needs!

## Breakfast

Every morning, a yummy breakfast will be served at the Burgo das Nacións cafetería.

## Lunch

We'll provide all the participants with **lunch packs**, kindly elaborated by a small family owned business in Santiago. You'll be able to walk around the city and decide where do you want to seat to eat, maybe in the company of dozens of pilgrims sitting at the Praza do Obradoiro or in Bonaval Gardens. Your pack which will include the following:

- One sandwich, pizza or empanada (traditional Galician pie)
- One dessert
- One piece of fruit
- One bottle of water

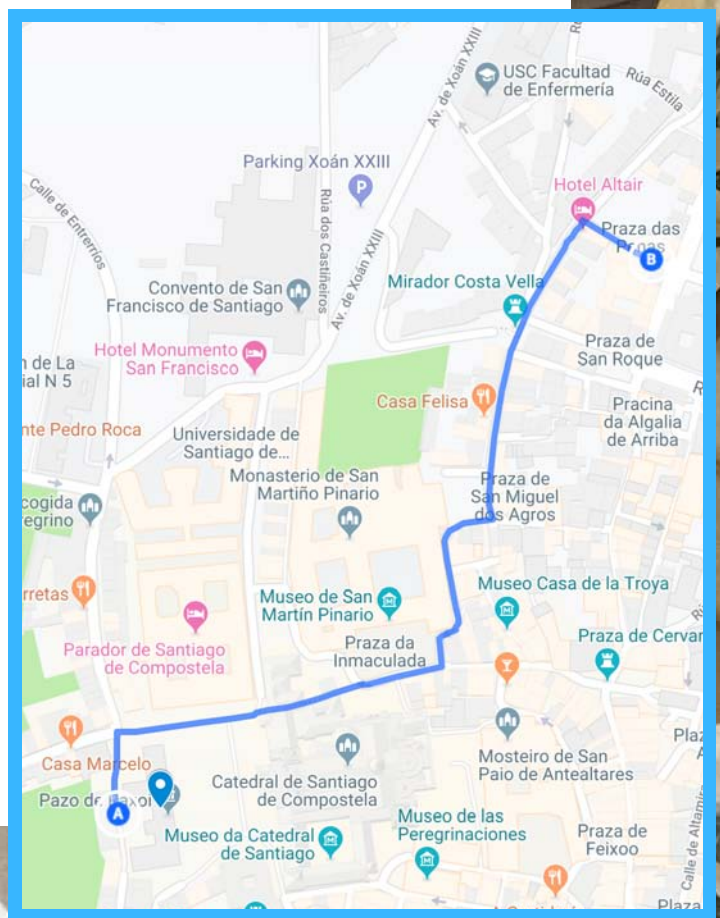

## Dinner

After finishing each day's session, you'll have dinner at the restaurant,

**Garum Bistró (B),**

*[Garum Bistró, Praza das Penas, Santiago de Compostela]*

**where you'll enjoy a full menu.** It's a 10 minutes walk from the Consello da Cultura Galega (A).

Galicia is internationally **famous for its gastronomy**. We didn't know what to choose between all our different delicious options, so we inspired ourselves in this blog (<https://spanishsabores.com/2017/03/09/typical-food-in-galicia/>) to give you some food recommendations you could try once you are here:

## LOCAL PRODUCTS

1. Pulpo á Feira (Market-Style Octopus)
2. Mexillóns ao Vapor (Steamed Mussels)
3. Pementos de Padrón (Padron Peppers)
4. Cocido Galego (Galician Stew)
5. Queixo de Tetilla (Tetilla Cheese)
6. Caldo Galego (Galician Broth)
7. Empanada Galega (Galician-Style Empanada)
8. Chuletón de Tenreira (T-Bone Steak)
9. Leite Frita (Fried Milk)
10. Tarta de Santiago (Santiago Cake)

## NIGHTLIFE AND BARS

If you want to try the world-famous and best **tortilla** in the city, visit **MOHA** or **La Tita** in **Rúa Nova**.

For a nice **coffee** in one of your breaks, any bar will do but you'll love the amazing garden of **Hotel Costa Vella**, just a few minutes walking from our venue.

However, if you are a "**juice** person", I'd go to **Camalea Bar** or **Blu Café**.

If you want to go for **drinks** after a session, the **MOMO pub** is the place, with a great atmosphere and a huge terrace if the weather is nice!

Other places to check would be the **Modus Vivendi**, **Medusa Pub** or **Atlántico Pub**.

Something you may want to keep in mind is **opening times** in Spain: shops will be open usually from 9 or 10 in the morning til 14:00 (lunch time break), and then again from 16:30 til 20:00 usually. On the other hand, dinner time starts after 20:30-21:00, and although restaurants and cafés will close around 23:00, bars and pubs will be open at least until midnight.

- Presentation by Leticia Santaballa
  - Screening and conversation with the director "The colour of the sea. A border filmic experience in Ceuta" (Keina Espiñeira, Spain 2015). The film explores the experience of exile in a hybrid documentary intermingling reality and fiction. Taking the perspective of a group of refugees stuck in-between borders, director Keina Espiñeira delves into a place where human trajectories are spatially and temporally suspended. Myths from the colonial past intertwine with mundane conversations, while hypnotic images of the sea give an air of poetic unreality to an all too real border experience.

FRIDAY, 13TH  
SEPTEMBER  
2019

TRIP TO A  
CORUÑA!

One of the Laboratory sessions will be held in A Coruña, the province's biggest city. This coastal city, situated 70 km from Santiago de Compostela, is famous for being the site of the world's oldest working lighthouse, the Tower of Hercules, built by the Romans and included on the UNESCO World Heritage List in 2009. The one-day session of the Laboratory in A Coruña will be held in the Faculty of Sociology, where ESOMI (Research Team in Sociology of International Migrations) is based. As with the sessions held in the Consello da Cultura Galega, the facilities include all necessary technologies and materials.

This double session consisting in the seminar "Social Inequalities in a Globalized World" and followed by the workshop "How to Publish in an International Journal" has been jointly organised with the FES Phd School and the PHD Programme on Social and Behavioral Sciences at the University of A Coruña (UDC). This is an open session, so members from the University of Coruña, the University of Santiago de Compostela and other Spanish Universities will actively participate on it.
