Welcome from the President of the International Sociological Association (ISA)

Dear Colleagues and Friends, Members of the international community of sociologists!

Your biggest worldwide organization, the International Sociological Association (ISA) is welcoming you warmly and cordially to its XVI World Congress of Sociology. It is apt to become a great academic event. It is up to you to make it so.

For the first time in ISA's history we have invited sociologists from most countries of the world to Africa, the great continent torn between dramatic legacies and calamities of the past, and the promise of revival and a bright future. Where else on Earth could we better ponder this Congress' principal theme: "The Quality of Social Existence in a Globalising World"? Where else could we experience and observe so clearly the whole spectrum of human fate stretching tenuously between the tragedy of human degradation and the hope of dignified, sustainable development of human potential?

The Programme Committee has prepared an extremely rich and diversified programme, suiting, we assume, all of your thematic concerns, theoretical approaches and methodological orientations. But the programme is only a frame; it must be filled in the days to come with your innovative, bold and challenging ideas. Share them with thousands of other sociologists from various countries around the globe. Find responsive audiences and sympathetic critics.

But you have certainly brought with you not only academic papers, but also the spirit of friendship and solidarity with other sociologists. The world craves for community. Let us start with ourselves. Build networks for future research, make acquaintances,

establish ties of cooperation and trust stretching across all continents and state borders. Let us share our concern not only with sociology, but also with our globalising society. Let the worldwide community of sociologists become the model for the worldwide community of common people.

Staying at Durban, let us also turn our gaze on Africa. At the Congress you will have the opportunity to attend numerous sessions on African issues, and to meet a new generation of aspiring African sociologists sharing with us their original insights. What - as sociologists - can we possibly do for Africa, to help it move toward a higher and nobler quality of existence?

Our professional duty is to mobilize all of our intellectual capital: to think, to diagnose, to explain, to draw scenarios for the future, and to provide some guidance how to get from here to there. We have no power in the traditional sense, but we do have the power of sociological imagination.

Take the opportunity not only to think about Africa, but also to experience it first-hand. I strongly encourage you not to stay in the Congress halls all of the time. In the breathers between myriad sessions, see and feel Africa in all its dimensions - exotic beauty and challenging social issues, the darkness and brightness of life-worlds. Let us admire together the Sun rising over the African land, and let us help it rise over African society.

We hope that a week from now you will be leaving Durban intellectually and personally enriched. Have a great time here.

President of the ISA

Bienvenida del Presidente de la Asociación Internacional de Sociología (AIS)

¡Queridos colegas y amigos, miembros de la comunidad internacional de sociólogos!

Vuestra mas grande organización mundial, la Asociación Internacional de Sociología (AIS) os da una calurosa y cordial bienvenida al XVI Congreso Mundial de Sociología. Será un gran acontecimiento y su éxito depende de vosotros.

Por primera vez en la historia de la AIS, hemos invitado a sociólogos de todo el mundo a venir a África, un gran continente desgarrado entre los legados dramáticos y las calamidades del pasado, y la promesa de renacimiento y de un futuro brillante. ¿En qué otro lugar del planeta sería mejor valorado el tema principal de este Congreso: "La calidad de la existencia social en un mundo globalizado"? ¿Dónde mejor podríamos experimentar y observar tan claramente todo el espectro del destino humano extendiéndose entre la tragedia de la degradación humana y la esperanza de un

desarrollo digno y sostenible del potencial humano?

El Comité del Programa ha preparado un programa rico y diversificado, acoplado, nos parece, todas vuestras preocupaciones, enfoques teóricos y orientaciones metodológicas. Sin embargo, el programa es sólo un marco que tiene que ser llenado en los próximos días con vuestras ideas innovativas, audaces y desafiantes. Compartidlas con los otros miles de sociólogos de todo el mundo. Encontrad audiencias receptivas y críticas comprensivas.

Sin embargo no solo habéis traído con vosotros ponencias, sino también un espíritu de amistad y solidaridad con otros sociólogos. El mundo anhela vivir en comunidad. Vamos a empezar por nosotros mismos. Construyamos grupos de trabajo para futuras investigaciones, hagamos contactos, establezcamos lazos de cooperación y confianza que se extiendan por todos los continentes y fronteras. Compartamos nuestras preocupaciones no solo con sociólogos, sino también con nuestra sociedad globalizada. Hagamos

que la comunidad mundial de sociólogos se convierta en el modelo a seguir por la comunidad mundial de gente corriente.

Al estar en Durban, dirigamos nuestras miradas sobre África. En el Congreso podréis participar en numerosas sesiones sobre temas africanos, y conocer a nuevas generaciones de sociólogos africanos compartiendo con nosotros sus originales percepciones. ¿Qué podemos — como sociólogos — hacer por África para ayudarla a tener una existencia más elevada y más noble? Nuestra obligación profesional es movilizar todo nuestro capital intelectual: pensar, diagnosticar, explicar, dibujar escenarios para el futuro, y dar alguna orientación de cómo llegar desde aquí hasta allí. Nosotros no tenemos poder en el sentido tradicional, pero sí tenemos el poder de la imaginación sociológica.

Tomad esta oportunidad no sólo para pensar en África, sino

también para experimentarla sobre el terreno. Quiero animaros a no permanecer en los vestíbulos del Congreso todo el tiempo. En los descansos entre sesiones tenéis que ver y sentir África en todas sus dimensiones: hermosura exótica y desafiantes problemas sociales, la oscuridad y el brillo de sus diferentes mundos. Admiramos juntos como se pone el sol en la tierra africana, y ayudémosle a levantarse sobre la sociedad africana.

Esperamos que después de una semana dejéis Durban enriquecidos intelectual y personalmente. Que disfrutéis de una magnífica estancia.

Piotr Sztompka

Presidente de la AIS

Quelques mots de bienvenue de la part du Président de L'Association Internationale de Sociologie

Mes chers collègues et amis, membres de la communauté internationale des sociologues !

L'Association Sociologique Internationale, votre plus grande organisation mondiale, vous souhaite la bienvenue à son XVIème Congrès Mondial de Sociologie. Il promet être un grand événement académique et son succès dépend de vous.

Pour la première fois dans l'histoire de l'AIS, des sociologues du monde entier ont été invités en Afrique, ce grand continent qui est partagé entre un héritage et des calamités dramatiques du passé, et la promesse d'une renaissance et de réelles possibilités d'avenir. Où pourrions-nous mieux réfléchir au thème principal de ce Congrès: "La qualité de l'existence sociale dans le contexte de la mondialisation"? A quel autre endroit pourrions-nous mieux connaître et observer si attentivement l'éventail entier du sort humain qui s'étend de manière ténue entre la tragédie de l'avitement humain et l'espoir d'un développement durable et digne des capacités humaines?

Le Comité du Programme a préparé un emploi du temps riche et diversifié qui conviendra, nous espérons, aussi bien à tous vos intérêts thématiques et à vos approches théoriques qu'à vos orientations méthodologiques. Mais cet emploi du temps n'est qu'une grille qui doit être remplie, dans les jours à venir, de vos idées novatrices, audacieuses et provocatrices. Partagez-les avec les milliers d'autres sociologues venant de plusieurs pays dans le monde et vous y trouverez une assistance réceptive et des critiques compatissantes.

Mais vous avez certainement apporté avec vous non seulement vos articles académiques, mais aussi l'esprit d'amitié et de solidarité avec d'autres sociologues. Le monde a un grand besoin de communauté. Commencez maintenant: construisez des réseaux pour des recherches dans l'avenir, faites connaissance les uns et les autres, créez des liens de coopération et de confiance qui

franchissent toutes les frontières et tous les continents. Partagez les soucis non seulement en ce qui concerne la sociologie, mais aussi par rapport à notre société dans le contexte de la mondialisation. Que la communauté mondiale des sociologues devienne le modèle pour la communauté mondiale des gens du commun!

Etant donné que nous nous retrouvons à Durban, regardons aussi le continent d'Afrique. A ce Congrès, vous aurez l'occasion d'assister à plusieurs séances qui traiteront des problèmes africains ainsi que de rencontrer une nouvelle génération de sociologues africains en herbe qui partageront avec nous leurs nouvelles perspectives originales. En tant que sociologues, que pourrions-nous faire pour l'Afrique - pour l'aider à avancer vers une qualité d'existence plus élevée et plus généreuse? Notre devoir professionnel est de mobiliser tout notre capital intellectuel: pour réfléchir, pour diagnostiquer, pour chercher des explications, pour élaborer des scénarios pour l'avenir, et pour donner des conseils pour pouvoir évoluer. Nous n'avons aucun pouvoir dans le sens traditionnel, mais nous avons le pouvoir de l'imagination sociologique.

Profitez de cette occasion pour non seulement réfléchir à ce continent, mais aussi pour pouvoir mieux le connaître. Je vous encourage à ne pas rester dans les salles de travail tout le temps. Pendant les pauses entre la myriade des séances, voyez et sentez l'Afrique telle qu'elle est, dans toutes ses dimensions - la beauté exotique et les problèmes sociaux difficiles, l'obscurité et la luminosité de la vie. Admirez ensemble le soleil briller sur la terre africaine, et aidez-nous à le faire briller sur la société africaine.

Nous espérons que quand vous quitterez Durban d'ici une semaine, vous serez enrichis aux niveaux intellectuel et personnel. Profitez-en et amusez-vous bien !

Piotr Sztompka

Président de l'AIS

Welcome from the Vice President of the Programme Committee of the ISA

On behalf of the Programme Committee of the ISA: Welcome to Durban! Durban was not always welcoming!

One hundred and ten years ago, a young lawyer, born in Pondobar, India was welcomed differently: "They pelted me with stones, brickbats and rotten eggs. Someone snatched away my turban, whilst others began to batter me and kick me. I fainted and got hold of the front railings of a house and stood there to get my breath . . . They came upon me boxing and battering".

. . . A hundred years ago Mahatma Gandhi conceived of and initiated the first "satyagraha" campaign. This year marks its centenary.

As Max Weber was working through the first edition of his "Protestant Ethic and the Spirit of Capitalism", the last stand of the Zulu against colonial taxes, the "Bambatha Rebellion" was spreading in Natal's countryside and the city, Durban, eDholobeni, Ethekewini, was taking shape as the principal harbour for Witwatersrand's gold and the colony's sugar. If capitalism's spirit was effervescent, this space was its troubled familiar. "Durban" intoned the poet Dhlomo, where race and "wealth and power and blood-reign worshipped gods!"

Welcome to a different Durban then, a city of 3.5 million people searching for its post-Apartheid soul.

Your committee has worked hard to make this Congress a significant scientific encounter. The results are obvious: a formidable spread of participants from 94 countries and for the first time, participation from most parts of the African continent.

The theme of the Congress - "The Quality of Social Existence in a Globalising World" provides a broad-enough tent to contain the deep dilemmas that confront us as human beings and as scholars of a resilient craft.

The theme, furthermore, allowed the Programme Committee to twine and weave a number of symposia that extend and deepen its central concerns: about citizenship, governmentability, diversity and

social exclusion; about human security and peace; about creativity, culture and social life; about identities, intimacy and emotions and; about the frontiers of science and social science.

As mandated, we have also made this Congress a vital platform for African dilemmas and priorities: the focused symposia were the result of sifting through no less than 164 proposals. With the help of CODESRIA and SASA and the NRF, the vision has become a tangible reality. Whether we are debating African modernities with their successes and traumas; whether we are understanding social movements and change or health and disease on the continent; whether we are reflecting the materiality of land and agrarian questions or language and power; whether we are exploring

Africa's contribution to trans-Atlantic aesthetic and performative cultures or identities; finally whether we are studying crises, marginality, race or religion, we have made sure to assert that all sessions are central to an ecumenical concern about the quality of social existence. Even the approved Ad Hoc Sessions, National Association Sessions, Guest Sessions, and Language Community Sessions further thread the overall theme in fascinating ways.

The scientific wealth of the programme though is primarily due to the workings of the invisible hand of the ISA's Research Committees, Thematic and Working Groups. This text makes them visible for the first time. It has been a humbling experience putting it all together - the quality of the effort to make this first historic gathering in Africa a success, the responsiveness of the committees and the spread of scholarship are here in your hands for all to see.

Ari Sitas

Vice President of the ISA (Programme)

Bienvenida del Vicepresidente del Programa del Congreso de la Asociación Internacional de Sociología

¡En nombre del Comité del Programa: Bienvenidos a Durban! ¡No siempre Durban ha sido tan hospitalario!

Hace ciento diez años, un joven abogado, nacido en Pondobar, India, fue recibido de una forma diferente: "Me tiraron piedras, ladrillos y huevos podridos. Alguien me arrancó mi turbante, mientras otros comenzaban a apalearme y golpearme. Me desmayé y me amarraron a la reja de una casa y luego me mantuvieron de pie allí para permitirme respirar. . . luego se abalanzaron sobre mí dándome puñetazos y apaleándome". . . Hace cien años Mahatma Gandhi concibió e inició la primera campaña "satyagraha". Este año es su centenario.

Mientras Max Weber trabajaba en la primera edición de la "Ética Protestante y el Espíritu del Capitalismo" y tenía lugar la última rebelión de los Zulúes en contra de los impuestos coloniales, la "rebelión de Bambatha", extendiéndose en todo el campo en Natal, la ciudad, Durban, eDholobeni, Ethekewini, fue tomando forma como el principal puerto para el oro de Witwatersrand y el azúcar de la colonia. Si el espíritu del capitalismo estaba

en ascenso, este lugar fue su sitio ideal. El poeta Dhlomo entona, "Durban" donde la raza, "la riqueza, el poder y el reino de la sangre son venerados como dioses!"

Bienvenidos entonces a un Durban diferente, a una ciudad de 3.5 millones de personas buscando su alma 'post-apartheid'.

Vuestro Comité ha trabajado duro para hacer de éste Congreso un encuentro científico significativo. Los resultados son obvios: un formidable despliegue de participantes de 94 países y, por primera vez, la participación de la mayor parte del continente africano.

El tema del Congreso, "La calidad de la existencia social en un mundo globalizado" tiene un significado lo suficientemente amplio como para contener los profundos dilemas que nos enfrentan como seres humanos y como profesionales de nuestro campo.

El tema además permite al comité tejer y unir un número de simposios que se extienden y profundizan en sus más importantes preocupaciones: ciudadanía, gobernabilidad, diversidad y exclusión social; paz y seguridad

humana; créativité, vida social y cultural; identidades, intimidad y emociones y las fronteras de la ciencia y las ciencias sociales.

Como Comité del Programa, también hemos hecho de este Congreso una plataforma vital para los dilemas y prioridades de África: los simposios sobre temas africanos fueron el resultado del examen de no menos de 164 propuestas. Con la ayuda de CODESRIA, (Consejo para el Desarrollo de la Investigación en Ciencias Sociales en África), SASA, (Asociación Sudafricana de Sociología) y de la NRF, (Fundación Nacional de Investigación), la visión se ha transformado en una realidad tangible. Tanto si discutimos sobre la modernidad africana con sus éxitos y traumas; como si vamos a intentar comprender los movimientos y cambios sociales, o la salud y enfermedades del continente; tanto si reflexionamos sobre la materialidad de la tierra y los problemas agrarios o el lenguaje y el poder; como si exploramos la contribución de África a la estética trans-Atlántica y las expresiones culturales o identidades; por más que, finalmente, estudiemos crisis, marginalidad, raza o religión, nos hemos asegurado de que todas las sesiones sean fundamentales para una visión ecuménica sobre la calidad

de la existencia social. Incluso las sesiones Ad Hoc, las sesiones de las Asociaciones Nacionales, las sesiones de otras organizaciones invitadas, y de las Comunidades Lingüísticas tratarán el tema del Congreso de una forma fascinante.

La riqueza científica del programa se debe principalmente al trabajo de las manos invisibles de los Comités de Investigación de la AIS, de los Grupos de Trabajo y de los Grupos Temáticos. Este texto los hace visibles por primera vez. En términos generales ha sido una experiencia enriquecedora; el esfuerzo para hacer un éxito este primer encuentro en África, la cooperación de todos los comités y la propagación de nuestro campo están aquí en vuestras manos para que todos lo puedan ver.

iShwele! iBendiciones!

Ari Sitas

Vicepresidente (del Programa), IAS

Quelques mots de bienvenue de la part du Vice-Président du Comité du Programme de l'AIS

Au nom du Comité du Programme de l'AIS : Bienvenue à Durban ! Durban n'a pas toujours été une ville accueillante !

Il y a cent dix ans, un jeune avocat, né à Pondobar, en Inde, a été accueilli d'une manière très différente : "Ils m'ont bombardé de pierres, de morceaux de briques et d'œufs pourris. Quelqu'un m'a volé mon turban, alors que d'autres m'ont frappé et m'ont mis des coups de pied. Je me suis évanoui et, à un moment donné, j'ai pu attraper les garde-fou d'une maison et j'y suis resté un moment, debout, rien que pour récupérer mon souffle... Ils sont venus me frapper et me lapider..." C'était il y a cent ans que Mahatma Gandhi a conçu et a initié la première campagne « satyagraha ». Cette année marque le centenaire de cet événement.

Lorsque Max Weber travaillait sur sa première édition de « La Morale Protestante et l'Esprit du Capitalisme », en tant que dernière résistance zoulou contre les taxes coloniales, la « rébellion Bambatha » se répandait dans la campagne de Natal, et la ville de Durban, eDholobeni, Ethekwini, prenait forme comme le port principal pour l'or de Witwatersrand et le sucre de la colonie. Si l'esprit du capitalisme était plein d'entrain, ce terrain était un lieu en proie à des troubles. "Durban", comme le poète Dhlomo l'a entonné, "là où la race et la richesse et le pouvoir et la lignée sont des dieux adorés !"

Bienvenue, alors, à une ville différente. Durban, une ville qui compte un total de 3,5 millions d'habitants qui sont tous en recherche de leur âme après l'Apartheid.

Votre Comité a beaucoup travaillé pour que ce Congrès soit une rencontre scientifique significative. Les résultats sont évidents: de nombreux participants qui viennent de 94 pays et, pour la première fois, la participation des intervenants qui viennent de la plupart du continent d'Afrique.

Le thème de ce Congrès, "La Qualité de l'Existence Sociale et Mondialisation" est un sujet profond qui comprend les dilemmes auxquels nous faisons face en tant qu'êtres humains et ainsi que savants d'un métier résistant.

D'ailleurs, le thème a donné au Comité l'occasion de tresser et de tisser plusieurs symposiums qui approfondissent et qui poussent plus loin ses soucis principaux: en ce qui concerne la citoyenneté, la gouvernance, la diversité et l'exclusion sociale; la sécurité humaine

et la paix; la créativité, la culture et la vie sociale; les identités, l'intimité et les émotions; et les frontières de la science et des sciences sociales.

Comme nous l'avons indiqué, ce Congrès est aussi une tribune pour les problèmes et les priorités africains: le choix des symposiums est le résultat d'un tri d'une sélection de 164 propositions. Avec l'aide du Conseil pour le Développement de la recherche en Sciences Sociales en Afrique (CODESRIA), l'Association Sociologique d'Afrique du Sud (SASA) ainsi que la Fondation Nationale de Recherche (NRF), la vision est devenue une réalité tangible. Que nous débattions sur les modernités africaines - leurs réussites et leurs traumatismes; que nous essayions de comprendre les mouvements sociaux et les changements ou bien la santé et la maladie sur le continent; que nous réfléchissions au matérialisme des questions agraires ou concernant les terres, ou les langues et le pouvoir; que nous explorions la contribution d'Afrique aux esthétique et cultures performantes ou identités trans-Atlantique; et enfin, que nous étudions les crises, la marginalité, les races ou la religion, nous sommes assurés que toutes les séances soient pertinentes à notre souci principal qui est celui de l'existence sociale. Même les séances Ad Hoc, les séances des Associations Nacionales, les séances des autres organisations invitées ainsi que les séances des Communautés Linguistiques contribuent au thème général du Congrès de manière fascinante.

La richesse scientifique de ce programme est due aux travaux menés par les Comités de Recherche, les Groupes de Travail et les Groupes Thématiques de l'AIS. Ce texte les rend visibles pour la première fois. La planification de ce Congrès a été une expérience enrichissante - maintenant, la qualité de l'effort pour que cette première rencontre en Afrique soit un succès, la coopération des comités et le partage des savoirs dépendent de vous tous.

Welcome from the Chairperson of the South African Local Organising Committee (LOC)

On behalf of the Local Organising Committee, I welcome you warmly to South Africa and to Durban, a city that is home to over 3 million people exhibiting a rich diversity in all its social manifestations. In fact, Durban is a social laboratory reflecting in a transformative agenda, in both government and civil society, all the characteristics of South African society in transition. By joining us in Durban, you are invited to engage with your intellectual counterparts in an urban hub that reflects the glaring challenges humankind faces in improving the quality of social existence in our globalising world. Durban provides you with the opportunity to encounter the developmental challenges of our continent, and indeed the world, in a climate that is highly cognisant of the importance of the role of social science in the process of reconstruction and development.

Durban's commitment, articulated by our democratically-elected local government, to ensure a better life for all is to be found in the great strides made in service delivery with over 15, 000 houses being provided each year to those too poor to pay for them, and the increased and cost-effective provision of electricity, water and

sanitation services; but all agree that much more needs to be done – a process for which there is considerable political will. In addition, our commitment to an environmentally-friendly city and a smart electronically-connected city are also becoming increasingly evident.

We have been keen to ensure that your stay in Durban is not just intellectually stimulating, but socially rewarding as well. To this end, you are urged to attend the opening ceremony on Sunday, 23 July 2006 and the spectacular beach event organised by Durban Africa, a unit of the eThekweni Municipality, on Friday, 28 July 2006. In both these events, you will witness the exciting multiculturalism that defines our region and that informs our approach to the quest

for social upliftment. We have also put together a programme of socially-relevant and unique tours designed to give you a better understanding of our city and region, its history, geography and political economy. Or just relax on our Blue Flag beaches and indulge in our culinary delights. Enjoy Durban.

Dasarath Chetty

Chairperson of the Local Organising Committee

Bienvenida del Presidente del Comité Local Organizador

En nombre del Comité Local Organizador, les doy una calurosa bienvenida a Sudáfrica y a Durban, una ciudad que alberga mas de 3 millones de personas con una rica diversidad en todas sus manifestaciones sociales. Durban es un laboratorio social que refleja en una tendencia transformadora, que se da tanto en el gobierno como en la sociedad civil, todas las características de una sociedad sudafricana en transición. En Durban, contactarán con vuestros colegas en un núcleo urbano que refleja los más deslumbrantes desafíos a los que el hombre tiene que enfrentarse para mejorar la calidad de la existencia social en nuestro mundo globalizado. Durban os brinda la oportunidad de encontraros frente a los desafíos del desarrollo de nuestro continente, y en realidad del mundo, en un ambiente que reconoce la importancia del papel de las ciencias sociales en el proceso de la reconstrucción y el desarrollo.

El compromiso de Durban, expresado claramente por nuestro gobierno local elegido democráticamente, para asegurar una vida mejor para todos se percibe en los grandes progresos tales como repartir mas de 15.000 casas cada año entre aquellos demasiado pobres para poder pagarlas, el aumento y la mejora del suministro de electricidad, agua y servicios sanitarios. Sin embargo, todo el mundo está de acuerdo en que se debe hacer mucho mas, algo

para lo que hay una voluntad política importante. Además, cada vez es más evidente nuestro compromiso para construir una ciudad con una mayor protección del medioambiente y una ciudad conectada electrónicamente.

Hemos trabajado con entusiasmo para asegurar que vuestra estancia en Durban no sea solo estimulante desde un punto de vista intelectual sino también social. Para ello, os invitamos a asistir a la ceremonia de apertura el domingo, 23 de julio de 2006 y al espectacular evento en la playa organizado por una unidad de la Municipalidad eThekweni llamada "Durban África", el viernes, 28 de julio de 2006. En ambos eventos seréis testigos del excitante multiculturalismo que define nuestra región y que influye en nuestra búsqueda de una sociedad mejor. También hemos puesto a vuestra disposición un programa de viajes únicos y socialmente relevantes diseñados para daros un mejor conocimiento de la historia, geografía y política económica de nuestra ciudad y de nuestra región. O, si queréis, podéis relajarnos en nuestras magníficas playas y disfrutar de nuestros placeres culinarios. Disfrutad Durban.

Dasarath Chetty

Presidente del Comité Organizador Local de Sudáfrica

Quelques mots de bienvenue de la part du Président du Comité d'Organisation Locale Sud Africain

De la part du Comité d'Organisation Locale, je vous souhaite la bienvenue en Afrique du Sud, plus précisément, à Durban, une ville qui, avec plus de 3 millions d'habitants, montre une véritable diversité riche en manifestations sociales. Durban est, en effet, un laboratoire social qui reflète, aussi bien dans le gouvernement que dans la société civile, dans le contexte de la transformation, toutes les caractéristiques de la société sud africaine en période de transition. En nous rejoignant ici à Durban, nous vous invitons à dialoguer avec vos collègues intellectuels dans ce centre urbain qui reflète les défis flagrants auxquels l'humanité doit faire face pour améliorer la qualité de l'existence sociale dans ce contexte de la mondialisation. Durban vous donne l'occasion de rencontrer les difficultés de croissance de notre continent, et par ailleurs du monde, dans un climat où la conscience de l'importance du rôle de la science sociale dans le progrès de la reconstruction et du développement est bien présente.

L'engagement de Durban, exprimé par notre gouvernement local qui a été démocratiquement élu, qui est de s'assurer de pouvoir trouver une meilleure vie pour tous, est trouvé dans les grands progrès faits dans le domaine de prestation de services, dans la mesure où, chaque année, 15 000 maisons sont fournies à des personnes qui n'ont pas les moyens de les payer ainsi qu'une augmentation de l'approvisionnement de l'électricité, de l'eau et des services sanitaires. Mais nous sommes tous d'accord que nous

avons besoin de faire davantage - un processus pour lequel il y a une volonté politique considérable. En outre, notre engagement à créer une ville où les soucis de l'environnement et l'avancée technologique deviennent de plus en plus évidents.

Nous nous sommes assurés que votre séjour à Durban ne vous stimule pas seulement intellectuellement, mais qu'il soit enrichissant au niveau social également. Avec cela comme but, nous vous conseillons vivement d'assister d'une part, à la Cérémonie d'ouverture le dimanche 23 juillet 2006, de l'autre, à l'événement spectaculaire à la plage qui a été organisé par Durban Africa, une unité de la Municipalité eThekweni, et qui aura lieu le vendredi 28 juillet 2006. Au cours de ces deux événements, vous serez témoins du multiculturalisme excitant qui définit notre région et qui porte notre approche à la quête d'une élévation sociale. Pour que vous puissiez avoir une meilleure compréhension de notre ville et sa région, son histoire, sa géographie et son économie politique, nous avons, également, planifié un programme de visites qui seront uniques et pertinentes socialement. Ou sinon, reposez-vous sur nos plages splendides et faites-vous plaisir avec nos spécialités culinaires. Amusez-vous bien ici à Durban.

Dasarath Chetty

Président du Comité d'Organisation Locale Sud Africain

Welcome from the President of the South African Sociological Association (SASA)

On behalf of the Council and the entire membership of the South African Sociological Association, I welcome the participants at the XVI ISA World Congress of Sociology to our shores. As the first ISA World Congress to be held on African soil, the honour of hosting this congress is one we share with our sister associations across our continent.

The theme of the XVI World Congress is particularly apt at this junction in our national history and in our continent's history. Twelve-and-half years into our democracy, and the formal end of Apartheid, too many of our people are still confronted with the debilitating effects of an undignified social existence. Millions on our continent daily contend with the scourge of poverty, forced displacement, and avoidable health pandemics. For us in South Africa, specifically, and in Africa, generally, this is a most exciting period as we strive to build new

societies that are inclusive, democratic, and meet the challenges of improving the quality of social existence of our peoples. In contexts such as ours, the sociology/policy nexus is immediate—the profundity of our scholarship finding resonance in our engagement with the conditions of social existence in our societies.

It is my hope, as well, that the XVI ISA World Congress will mark a significant shift in how the ISA engages with our continent -- beyond perfunctory acknowledgment and towards a genuine openness to the creative enterprises across our continent at constructing sociologies that reflect our experiences, in distinctly epistemic ways; beyond mere translation. Nginyanemukela! Karibu!!

Jimi O. Adesina
President of the SASA

Bienvenida del Presidente de la Asociación Sudafricana de Sociología (SASA)

En nombre del Consejo y de la totalidad de los miembros de la Asociación de Sociología de Sudáfrica, doy la bienvenida a nuestras tierras a todos los participantes al XVI Congreso Mundial de Sociología de la AIS. El honor de hospedar este congreso, el primer Congreso Mundial de la AIS que tiene lugar en suelo africano, es compartido por nuestras asociaciones hermanas de todo el continente.

El tema del Congreso es particularmente apto en este momento de nuestra historia nacional y de la historia de nuestro continente. Doce años y medio de democracia, y la finalización formal del 'apartheid', y todavía demasiada gente se enfrenta a los efectos debilitantes de una existencia social indigna. Millones en nuestro continente luchan diariamente contra el azote de la pobreza, contra el desplazamiento forzoso y contra enfermedades pandémicas que podrían evitarse. Para nosotros, en Sudáfrica, en particular, y en África, en general, éste es el período más excitante porque estamos esforzándonos por construir nuevas sociedades que sean integradoras, democráticas, y que se enfrenten a los desafíos

para mejorar la calidad de la existencia social de nuestra gente. En contextos como los nuestros, el nexo sociología/política es inmediato — la profundidad de nuestro conocimiento se refleja en nuestro compromiso con las condiciones de existencia social en nuestras sociedades.

Espero, también, que el XVI Congreso Mundial de Sociología de la AIS marque un cambio significativo en cómo la AIS se comprometa con nuestro continente — más allá de un reconocimiento superficial y hacia una genuina apertura a proyectos creativos a lo largo de nuestro continente para la construcción de sociologías que reflejen nuestras experiencias, de formas epistémicas diferentes, más allá de la mera traducción.

¡Nginyanemukela! ¡iKaribu!!

Jimi O. Adesina
Presidente de la SASA

Quelques mots de bienvenue de la part du Président de l'Association Sociologique d'Afrique du Sud (ASAS)

Au nom du Conseil et de tous les membres de l'Association Sociologique d'Afrique du Sud, je souhaite à tous les participants du XVIème Congrès Mondial de Sociologie de l'ASAS la bienvenue à notre pays ! Etant donné que c'est la première fois que le Congrès Mondial de l'ASAS a lieu sur le sol africain, nous partageons avec toutes nos organisations sœurs à travers tout le continent l'honneur d'être le pays d'accueil.

Le thème du XVIème Congrès Mondial est particulièrement pertinent en ce moment surtout si nous prenons en compte notre histoire nationale ainsi que l'histoire de notre continent. Douze ans et demi se sont écoulés depuis la fin de l'Apartheid et la naissance de notre démocratie et, néanmoins, il y a encore trop de gens parmi notre peuple qui doivent faire face aux effets humiliants d'une existence sociale qui manque de dignité. Chaque jour, il y a des millions de personnes sur notre continent qui ont affaire aux difficultés de la pauvreté, au déplacement forcé et aux pandémies de santé évitables. Pour nous, en Afrique du Sud, en particulier, et en Afrique, en général, cette époque est très importante parce que nous nous efforçons à construire de nouvelles sociétés plus riches,

des démocraties qui surmonteront les difficultés rencontrées lors de l'amélioration de la qualité de l'existence sociale de nos peuples. Dans des contextes comme les nôtres, les liens entre la sociologie et la politique sont immédiats – la profondeur de notre savoir doit trouver de l'ampleur dans notre engagement aux conditions de l'existence sociale dans nos sociétés.

J'espère, également, que le XVIème Congrès Mondial de l'ASAS marquera un changement significatif de la manière dans laquelle l'ASAS s'engage auprès de notre continent – au-delà de la reconnaissance superficielle et vers une ouverture authentique aux projets créatifs à travers tout notre continent pour construire des sociologies qui reflètent nos expériences de façon nettement épistémique, et qu'elle dépasse la traduction simple.

Nginyanemukela! Karibu!!

Président de l'ASAS

Introduction and Acknowledgements

Preparing the programme book for the XVI World Congress of Sociology has been both an exciting and formidable task. The programme reflects a rich diversity of papers submitted by scholars living, working, and actively engaging with the dilemmas of social existence from the various margins and centers of our globalising world. With over 3000 papers across more than 600 academic sessions, the opportunities for intellectual exchange, collaborative endeavors, and creative thinking about social issues and their research/ policy implications are innumerable.

The programme is divided into Morning Plenary Sessions and Afternoon/Evening Academic Sessions. Sessions are coded in the programme by type, and each of the session types is sponsored by different entities within the ISA.

The ISA Executive, for example, has organised the Presidential Sessions (PS); the ISA Programme Committee is sponsoring the Thematic Symposia (TSY), African Thematic Foci (AF), Integrative Sessions (IS), Guest Sessions (GS), Authors Meet Readers (AR), and Ad Hoc Sessions (AH); and each of the Research Committees (RC), Thematic Groups (TG), Working Groups (WG), Language Communities (LC), and National Associations (NA) have sponsored their own sessions on themes relevant to their membership. In addition, Research Committees, Thematic Groups, and Working Groups have at times joined efforts to organise Joint Sessions (JS) on themes of common interest.

Given the complexity and variation of the programme, synthesizing the information contained in this programme has been something of an organisational feat. The preponderance of work was accomplished within 6 weeks (May 1-June 15th) and would not have been realized without the commitment, flexibility, and hard work of many, many people.

Sincere gratitude and thanks to Emily Gachie, Ercument Celik, Meri Yeranosyan, and Bianca Tame, for working closely with session organisers to elicit sessions and papers in the early days of programme development; to Dean Henning for sharing his computer expertise and offering technical assistance as needed; to Caroline van Wyk, Robyn Shirley, Biniam Misguin, Sabrina Grosse Kettler, Steven Gordon and Serrenta Naidoo for assisting with the time-consuming task of data input and verification, to Claudia Martinez-Mullen, Quraisha Mahomed, and Izabela Barlinska for assisting with the Spanish and French translations contained herein; to Kibby Naidoo, Bernard Dubbeld and Sheetal Dullabh for working assiduously to garner further funding for African scholars; to Robynne Savic and Jacqui Ingram-Klopper for moving the process along at critical junctures; to Artworks for their willingness to go the extra mile; to Jonitha Rawatlal for sharing her office and generous spirit while the project team was itinerant; and special thanks to Nadia Sitas for burning the midnight oil and doing what had to be done to pull this programme together.

Last but not least, we would like to thank the National Research Foundation (NRF) for providing funding for African scholars to be part of this historic congress. Without the NRF's generous donation, the scale of participation by African scholars would not have been possible.

WE MAKE SURE YOUR PUBLIC IMAGE IS PROPERLY MANAGED.

IN THE 21ST CENTURY, YOU CANNOT MANAGE YOUR COMPANY'S REPUTATION BY PUBLIC RELATIONS ALONE. TO ENSURE THAT YOUR ORGANISATION'S APPEARANCE, POLICIES AND BEHAVIOUR IS CONSISTENT AND CREDIBLE AT EVERY TOUCH-POINT, GLOBAL INTERFACE OFFERS A VALUE CHAIN OF COMMUNICATION: FROM INTERNAL COMMUNICATION TO PUBLICITY, FROM PUBLIC RELATIONS TO POLITICAL LOBBYING, FROM EVENT MANAGEMENT TO BRANDING AND DESIGN. YOUR ORGANISATION'S REPUTATION IS ONE OF ITS MOST VALUABLE ASSETS. LET OUR HIGHLY SKILLED AND EXPERIENCED TEAM HELP MAKE SURE THAT YOUR PUBLIC IMAGE IS ONE AND THE SAME TO ALL.
