ISA Bulletin 39

The Secretariat

Now that some of you are perhaps already thinking of making travel arrangements for New Delhi, we want to stress here once again that Air India is our official carrier, and TCI is our official Indian travel agent arranging all accommodation and tours. On the back of the Bulletin we have presented more information about the Air India and TCI offices abroad.

However, you may not even need these addresses yourself - except to ask for leaflets about touristic destinations in India - since we have asked your national association to contact Air India and arrange group travel with them at highly competitive rates. At this stage, such arrangements for North America and Western Europe have already been finalized, while Air India offices worldwide have been informed about our congress and have been asked by headquarters to give all possible cooperation. So please contact your national association before making any definitive arrangements yourself.

Moreover, Air India headquarters guarantee seats for everyone intending to participate in the congress and will also reckon with desires for individual flight dates - since they also want to spread the congress traffic for those booking the pre- and/or post-congress tours mentioned in ISA Bulletin no. 38.

We have received a number of requests to acknowledge the receipt of mail. We literally receive thousands of abstracts, programmes and other assorted correspondence. To conserve the modest funds at our disposal for other purposes, it was decided that we should not write letters only to acknowledge receipt of something. We very much regret that financial constraints have forced us to take this decision.

Registration and Accommodation & Tours forms have been distributed. Additional copies are available from the ISA Secretariat, or may be made by photocopy.

19 June 1986 is the deadline for the reduced registration fees and for room reservations. A question has been raised about the definition of "ISA members" and "non-members". Let us clarify that "ISA members" are those who have paid individual membership dues to the ISA for the year 1986. All others are "non-members".

Each issue of this unique journal is devoted to a comprehensive 'Trend Report' on a topic of interest to the international community of sociologists. Authors review current trends and tendencies in all areas of sociological work - theories, methods, concepts, substantive research and national or regional developments. The aim is to review new developments, to discuss controversies, and to provide extensive bibliographies. From time to time, 'Commentaries on Trend Reports' are published in subsequent issues of the journal. Recent reports have focused on industrial and post-industrial sociology, the sociology of humour, agrarian relations and modes of production in the Middle East, sex roles, and inequalities of class and sex.

Issues are published in French or English, but a text in one language is always accompanied by an extensive resume in the other. CURRENT SOCIOLOGY is an official journal of the International Sociological Association. Its main aim is to review international developments in the discipline and to provide a forum for which professional sociologists from all countries can communicate with the widest group of colleagues.

A recently established journal of the ISA will publish papers which deserve world-wide circulation and which reflect the research and interests of the international community of sociologists. All branches of the discipline and all regions of the world are to be represented in its pages. The first year of publication is 1986 and four issues of 112 pages are planned a year (March, June, September, December).

The journal will provide a publication opportunity for papers with international, cross-cultural and comparative interest, where the results of work in one location or field are worth conveying to sociologists in the world at large and in many fields. It is intended that the Journal should be representative of widely different orientations and national and cultural backgrounds.

It will be published in the English language, but papers first written in other languages can be considered for translation if the Editor receives an English summary with the text.

Papers to be considered for publication should be sent to

This Series was established by the ISA in 1974 in place of
the transactions of World Congresses of Sociology, which
had been published since the Association’s foundation in
1949.

The Series contains topical volumes based on work presented
in the various sessions of World Congresses and reflecting
the scientific activities of the ISA’s Research Committees.

The books contain a selection of papers chosen for their
scientific quality, their international representativeness
and their relevance to the various debates currently taking
place in the discipline.

PERSPECTIVES ON SOCIOLOGICAL THEORY
edited by S.N. Eisenstadt, Hebrew University of Jerusalem,
and H.J. Bellu, Munich University

This important and much needed two-volume work takes stock
of the new approaches in sociology which have developed
since the 1960s. It demonstrates the convergence of macro-
and micro-sociology, and the recognition of problems common
to all areas of sociological endeavour.

Macro-Sociological Theory and its companion volume,
Micro-Sociological Theory, address three major shifts within
sociological theory. First, institutional orders and the
dynamics are increasingly seen as constructed by
activities of different actors, both individuals and groups.
This is reflected in a shift to the analysis of the
processes and mechanisms through which the social order,
both at macro- and micro-level, is constructed. Second,
and closely connected to the analysis of the construction of
social institutions, is a greater emphasis on the autonomy
of the major social actors. Third, is the new focus on the
dimension of power and the symbolic construction of reality
in the creation of the institutional order. The two volumes
treat these major theoretical issues in a variety of ways
and from different points of view, confronting in the
process problems that are common to all forms of
sociological analysis.

Reuben Hill made his stay in Belgium instrumental for establishing contacts and stimulating family research all over Europe. East and West. Through his contacts, the very first international seminar in sociology ever held in the USSR, eventually took place in 1972 after long years of preparation. Reuben’s diplomatic way in succeeding to bring together scholars not only belonging to different but opposing ideologies, was not based on human relations technique but resulted from a very deep human understanding and almost intuitive empathy. He invested a lot of time, energy and money in maintaining his contacts.

An honorary degree in Leuven 1970, a special plenary session at the NCFR Washington meeting 1982, an award (Reuben Hill award) for the best research piece carrying his name, are some of the signs of deep respect and appreciation the academic community bestowed on him, and which he accepted with joy, some glimpse of humor, making his proudness tempered by a constant awareness of relativity.

Reuben Hill’s sudden death, September 21, 1985, in Oslo Norway came in the middle of his activities and plans for the future. He was to come to Belgium and Sweden early '86. Many of us will miss him and many of us carry on his work.
