## Gral Info

### General Information

#### Local General Information

##### Banking and Currency

Decimal currency is used in Australia with the dollar as the basic unit (100 cents = A\$1). Notes come in A\$100, A\$50, A\$20, A\$10 and A\$5 denominations. Coins come in 5c, 10c, 20c, 50c, A\$1 and A\$2 denominations. Currency exchange facilities are available in most banks, hotels and airports and operate normal business hours. Credit cards are accepted at most restaurants and shops, the most widely used being MasterCard, Visa and American Express.

##### Climate and Clothing

At the time of the XX ISA World Congress of Sociology, it will be winter in Australia. A typical winter's day in Melbourne, Victoria will see temperatures reaching a high of 14°C (57°F) and a low of 7°C (45°F).

Generally Australians are informal dressers. We suggest you bring a jacket and tie with you for special occasions. A warm jacket is highly recommended for evenings.

##### Dining

Bistros, restaurants, cafes and coffee shops offer varied menus, prices and decor. Local specialties such as seafood and Australian wines are worth trying. At some restaurants you can keep the liquor bill down by taking your own wine or beer. These are called "BYO" restaurants, an abbreviation for "bring your own".

##### Electricity

Electrical current is 240/250V, AC 50Hz. The Australian three-pin power outlet is different from that in many countries, so you will need an adaptor. If your appliances are 110V, check if there is a 110/240V switch. If not, you will need a voltage converter. Universal outlets for 240V or 110V shavers are usually found in leading hotels.
