Welcome

Welcome message by the President of the International Sociological Association

From July 6 to 11, 4690 sociologists and social scientists from 101 countries will be attending this 5th ISA Forum of Sociology in Rabat.

This Forum convenes at a time when attacks on the social sciences and academic freedom are multiplying in an increasing number of countries, when scientific evidence is being denied in order to dismiss systemic environmental and social crises, when fake news is circulating more widely and with greater impact than research-based analysis.

We are gathered here in Rabat to reaffirm the values that lie at the heart of our work as researchers, teachers and public intellectuals, with a shared commitment to knowledge, critical inquiry and academic freedom. We reject simplistic narratives and assert the need for contextualised, sociological analyses of our complex world. We stand for a critical sociology that reveals inconvenient truths and reminds us that the words of the powerful are not always true, that a lie repeated a thousand times remains a lie.

At a time of climate change, war, rising inequality, authoritarianism, and the spread of hatred, we come together with the firm conviction that our discipline not only helps us understand the world but also contributes to transforming it towards greater justice, sustainability, and peace. Together, in Rabat, we will demonstrate the power of sociology to understand reality, foster dialogue, and inspire action.

This is the first time a major ISA event is held in the Arab world and the MENA region. Learning from and with our colleagues from this region and including more experience, research and knowledge from these countries will contribute to a better and more global understanding of the challenges of our times. The renewal and consolidation of Moroccan sociology is particularly welcome, as it invites us to develop a sociology rooted in different cultures, historical contexts and linguistic areas.

Allison Loconto, ISA Vice-President for Research and President of this 5th ISA Forum, invites us to share our research and perspectives on these crucial challenges with a timely title, "Knowing Justice in the Anthropocene". Climate change, increasing (natural) disasters, mass extinction of species and the destruction of nature are no longer warnings raised by scientists: they have become a tangible reality in the daily lives of every living being on this planet. Epistemic and social justice are crucial to deal with this new reality and to build alternative futures for living together on a finite planet.

Here in Rabat, we are honoured to welcome the presidents of the main continental sociological associations and social science councils. Leaders and delegates of the European, Latin-American, Asia-Pacific and East Asian sociological associations as well as the Latin-American, Arab and Asian Councils for Social Sciences will join us to strengthen our collaborations, reassert our shared values and support academic freedom, sociology and social sciences on all continents.

These are crucial times for sociologists to come together. These are crucial times for sociology.

Geoffrey Pleyers
ISA President

Message de bienvenue du Président de l'Association internationale de Sociologie

Du 6 au 11 juillet, 4690 sociologues et chercheurs en sciences sociales de 101 pays participeront à ce 5^e Forum de Sociologie de l'ISA à Rabat.

Ce Forum se tient à un moment où la liberté académique est remise en cause et où les sciences sociales sont attaquées dans un nombre croissant de pays, où les preuves scientifiques sont niées pour ne pas reconnaître l'urgence des crises environnementales et sociales, et où les *fake news* circulent plus largement et avec plus d'impact que les analyses fondées sur de solides recherches.

Dans ce contexte préoccupant, nous nous réunissons à Rabat pour réaffirmer les valeurs qui sont au cœur de notre travail en tant que chercheurs, enseignants et intellectuels publics, avec un engagement commun en faveur de la connaissance, de la recherche critique et de la liberté académique. Nous nous rassemblons pour rejeter les discours simplistes et affirmer la nécessité d'une compréhension qui ne nie pas la complexité du monde, et pour défendre une sociologie critique qui révèle les vérités qui dérangent et nous rappelle que les paroles des puissants ne sont pas toujours vraies et qu'un mensonge répété mille fois reste un mensonge.

À l'heure du changement climatique, des guerres, de la montée des inégalités, de l'autoritarisme et de la propagation de la haine, nous nous réunissons pour montrer ensemble que la sociologie est un outil essentiel pour comprendre, analyser et relever les défis de ce siècle. Au cours des 1246 panels de ce 5^e Forum, des sociologues venus de tous les continents montreront comment la sociologie permet de comprendre la réalité, favorise le dialogue et inspire l'action.

C'est la première fois qu'un événement majeur de l'Association internationale de Sociologie se tient dans le monde arabe. C'est une occasion pour apprendre de nos collègues de cette région et mieux intégrer à la sociologie globale l'histoire, les recherches et les connaissances issues de ces pays. Le renouveau et la consolidation de la sociologie marocaine

qu'incarne l'Instance Marocaine de Sociologie sont particulièrement bienvenus. À partir des spécificités de l'histoire et des sciences humaines de ce pays, nos collègues nous invitent à développer une sociologie qui combine des ancrages dans différentes cultures, histoires et aires linguistiques.

Allison Loconto, Vice-Présidente de l'ISA pour la recherche et Présidente de ce 5^e Forum, nous invite à partager nos recherches et nos perspectives autour du thème « Connaître les justes dans l'Anthropocène ». Il s'agit d'enjeux majeurs à l'heure où le changement climatique, la multiplication des catastrophes, l'extinction massive des espèces et la destruction accélérée de la nature ne sont plus seulement des alertes lancées par des scientifiques mais sont devenus une réalité tangible dans la vie quotidienne de tous les êtres vivants sur cette planète. La justice épistémique et sociale est essentielle pour faire face à cette nouvelle réalité et construire des futurs alternatifs qui permettront de vivre ensemble sur une planète aux ressources limitées.

Ici à Rabat, nous aurons également le privilège d'accueillir les présidents des principales associations continentales de sociologie et de sciences sociales, dans le cadre d'une nouvelle initiative de l'ISA. Les présidents des associations européenne, latino-américaine, de la région Asie-Pacifique et est-asiatique de sociologie, ainsi que les conseils latino-américain, asiatique et arabe de sciences sociales se réuniront avec l'ISA pour renforcer nos collaborations, réaffirmer nos objectifs et nos valeurs communes et soutenir la liberté académique, la sociologie et les sciences sociales sur tous les continents.

Ce Forum s'ouvre à une époque pleine de défis et de turbulences. C'est un moment crucial pour nous réunir comme sociologues.

Geoffrey Pleyers
Président de l'Association Internationale de Sociologie

Mensaje de bienvenida del Presidente de la Asociación Internacional de Sociología

Del 6 al 11 de julio, 4690 sociólogos y científicos sociales de 101 países asistirán a este 5º Foro de Sociología de la ISA en Rabat.

Este Foro se celebra en un momento en el que los ataques contra las ciencias sociales y la libertad académica se multiplican en un número cada vez mayor de países, en el que se niega la evidencia científica con el fin de desestimar las crisis ambientales y sociales, y en el que las *fake news* circulan más y con mayor impacto que los análisis basados en investigaciones rigurosas.

En este contexto es más importante que nunca reunirnos para reafirmar los valores que compartimos en nuestro trabajo como investigadores, docentes e intelectuales públicos y nuestro compromiso con el conocimiento, la investigación crítica, la integridad intelectual y la libertad académica. Rechazamos los discursos simplistas y afirmamos la necesidad de análisis sociológicos contextualizados para entender la complejidad de nuestro mundo. Defendemos una sociología crítica que no teme revelar verdades incómodas y nos recuerde que las palabras de los poderosos no siempre son ciertas, que una mentira repetida mil veces sigue siendo una mentira.

En una época de cambio climático, guerras, desigualdades crecientes, regreso de los autoritarismos y propagación del odio, nos congregamos con la firme convicción de que nuestra disciplina no solo ayuda a comprender el mundo, sino que también contribuye a transformarlo hacia una mayor justicia, sostenibilidad y paz. Juntos, en Rabat, demostraremos el poder de la sociología para comprender la realidad, fomentar el diálogo e inspirar la acción.

Es la primera vez que un evento importante de la ISA se celebra en el mundo árabe y en la región MENA. Aprender de y con nuestros colegas de esta región e incluir más las ex-

periencias, investigaciones y conocimientos de estos países contribuirá a una comprensión mejor y más global de los retos de nuestro tiempo. La renovación y consolidación de la sociología marroquí es especialmente bienvenida. Nos invita a desarrollar una sociología arraigada en diferentes culturas, contextos históricos y áreas lingüísticas.

Allison Loconto, Vicepresidenta de Investigación de la ISA y Presidenta de este 5º Foro, nos invita a compartir nuestras investigaciones y perspectivas alrededor de un tema crucial: "Conociendo las justicias en el Antropoceno". El cambio climático, el aumento de los desastres (naturales), la extinción masiva de especies y la destrucción de la naturaleza ya no son advertencias planteadas por los científicos: se han convertido en una realidad tangible en la vida cotidiana de todos los seres vivos del planeta. La justicia epistémica y social son fundamentales para hacer frente a esta nueva realidad y construir futuros alternativos para la convivencia en un planeta finito.

Aquí, en Rabat, tendremos también el honor de acoger a los presidentes de las principales asociaciones continentales de sociología y consejos de ciencias sociales. Líderes y delegados de las asociaciones de sociología europea, latinoamericana, de la región Asia-Pacífico y de Asia del Este, así como de los Consejos de Ciencias Sociales latinoamericano, árabe y asiático se unirán a nosotros para reforzar nuestras colaboraciones, reafirmar nuestros valores compartidos y apoyar la libertad académica, la sociología y las ciencias sociales en todos los continentes.

Estos son tiempos cruciales para que los sociólogos se unan. Son tiempos cruciales para la sociología.

Geoffrey Pleyers
Presidente de la ISA

Welcome message from ISA Vice-President for Research and President of the Forum

I have the immense honor to welcome you to the 5th ISA Forum of Sociology in Rabat, Morocco, a city that embodies our Forum theme: *Knowing Justice in the Anthropocene*.

This Forum marks an important milestone in the closely knit past, present and future of the ISA, particularly in this 25th year of the second millennium of our Gregorian calendar (12025 in the Holocene calendar). The ISA was created in 1948 as part of an initiative of UNESCO's Department of Social Sciences that today we would refer to as 'science diplomacy'. A small group of technical officers at UNESCO believed that the internationalization of the social sciences – and sociology in particular – played a fundamental role in maintaining peace in the post-World War II world. It was thus through the horizontal exchange of knowledge and pedagogical collaboration across the globe that our association took shape. In 2025, it would seem that we are not yet in a post-war world and there is an even greater need for horizontal exchanges and recognition of a diversity of ways of knowing.

Since ISA's first Congress in Paris in 1949, our organization has become increasingly international, now counting more than 6700 members from 124 countries on the five continents. For most of our history, the World Congress of Sociology has served as the most eagerly awaited meeting place for ISA members. But in 2008, the members of ISA's Research Committees, Working Groups and Thematic Groups called for more frequent meetings and more time for peer-to-peer exchanges within and across their epistemic communities. That's when the Forum was born in Barcelona. It has become increasingly important ever since, with nearly all of the 68 collectives participating this year in more than 1300 scientific sessions.

This edition in Rabat is the first time that the ISA members meet in North Africa. This privileged geographical location, at the crossroads of Mediterranean, Arab and African civilizations, provides the ideal setting for the intense debates among nearly 5000 sociologists from more than 100 countries. It is also the first time that the ISA hosts a Sociological Film Festival, featuring films made by ISA members.

Our starting point, and indeed my ending point in this short welcome note, is the recognition of the Anthropocene, which entered our vocabulary at the beginning of this millennium when geologists began to identify that the practices of human societies may also have left irreversible geological traces impacting the evolution of our planet. Some critics have claimed that this is not a topic for sociologists – or even for public policies – but the numbers cited before suggest otherwise. This is indeed a topic that needs to be reflected and acted upon by sociologists around the world. We are sorely in need of understanding, articulating and ensuring justice in our current societies. To do this, we must take seriously different forms of knowledge that have been marginalized, forgotten or ignored through a range of societal projects that seek to modernize, neo-liberalize and "civilize" our social and natural worlds. There has never before been a time when the sociological imagination, and public sociology, has been more needed in universities and in public spheres than in this epoch that we are living. My sincere hope is that the discussions undertaken in Rabat will leave their own traces in our societies.

Allison Loconto

ISA Vice-President for Research and 5th ISA Forum of Sociology President

Message de bienvenue de la Vice-Présidente de l'ISA chargée de la Recherche et Présidente du Forum

J'ai l'immense honneur de vous accueillir au 5^e Forum de Sociologie de l'ISA à Rabat, au Maroc, dans une ville qui incarne le thème de notre Forum : *Connaître les justices dans l'Anthropocène*.

Ce Forum marque une étape importante dans l'histoire passée, présente et à venir de l'ISA, en particulier en cette 25^e année du deuxième millénaire de notre calendrier grégorien (12025 dans le calendrier holocène). L'ISA a été créée en 1948 dans le cadre d'une initiative du Département des Sciences sociales de l'UNESCO qu'on pourrait qualifier aujourd'hui de « diplomatie scientifique ». Un petit groupe de fonctionnaires techniques de l'UNESCO estimait que l'internationalisation des sciences sociales – et de la sociologie en particulier – avait un rôle fondamental à jouer dans le maintien de la paix dans le monde d'après la Seconde Guerre mondiale. Notre Association s'est ainsi développée à la faveur de l'échange horizontal de connaissances et la collaboration pédagogique à travers le monde. En 2025, nous ne sommes manifestement pas encore dans un monde d'après-guerre et le besoin d'échanges horizontaux et de reconnaissance de la diversité des modes de connaissance apparaît d'autant plus prégnant.

Depuis son premier Congrès organisé à Paris en 1949, l'ISA est devenue de plus en plus internationale : elle compte aujourd'hui plus de 6700 membres dans 124 pays et cinq continents. Traditionnellement, le Congrès mondial de Sociologie a été le rendez-vous le plus attendu des membres de l'Association. Mais, faisant suite à la demande des membres de ses comités de recherche, groupes de travail et groupes thématiques d'organiser des réunions plus fréquentes et de consacrer davantage de temps aux échanges entre pairs au sein de leurs communautés épistémiques et entre celles-ci, est né en 2008 le Forum, dont la première édition a eu lieu à Barcelone. Depuis, le Forum n'a cessé de gagner en importance. Cette année, la quasi-totalité des 68 réseaux de recherche de l'ISA participent aux plus de 1300 sessions programmées.

Cette édition à Rabat est l'occasion pour les membres de l'ISA de se réunir pour la première fois en Afrique du Nord. Cette situation géographique privilégiée, au carrefour des civilisations méditerranéenne, arabe et africaine, offre un cadre idéal aux intenses débats qui vont se tenir entre près de 5000 sociologues de plus de 100 pays. C'est également la première fois que l'ISA accueille un Festival du Film sociologique, avec des films réalisés par des membres de l'Association.

Notre point de départ – et ce sera également mon dernier point – est la reconnaissance de l'Anthropocène. Ce concept est entré dans notre vocabulaire au début de ce millénaire lorsque des géologues ont commencé à identifier la possibilité que les pratiques des sociétés humaines aient également laissé des traces géologiques irréversibles ayant un impact sur l'évolution de notre planète. De l'avis de certains critiques, il ne s'agit pas d'un sujet pour les sociologues – ni même pour les politiques publiques – mais les chiffres cités précédemment semblent indiquer le contraire. Les sociologues du monde entier doivent en effet mener des réflexions et des actions sur ce sujet. Il nous faut absolument comprendre, définir et garantir la justice dans nos sociétés actuelles. Pour ce faire, il est nécessaire de prendre sérieusement en considération différentes formes de connaissances qui ont été marginalisées, oubliées ou ignorées par toute une série de projets sociétaux visant à moderniser, néolibéraliser et « civiliser » nos mondes sociaux et naturels. Jamais auparavant l'imagination sociologique et la sociologie publique n'ont été aussi nécessaires dans les universités et la sphère publique qu'à l'époque que nous vivons. J'espère sincèrement que les discussions engagées ici à Rabat laisseront leurs propres traces dans nos sociétés.

Allison Loconto
Vice-Présidente de l'ISA chargée de la Recherche et Présidente du 5^e Forum de Sociologie de l'ISA

Mensaje de bienvenida de la Vicepresidenta de la ISA para la Investigación y Presidenta del Foro

Tengo el inmenso honor de darles la bienvenida al 5º Foro de Sociología de la ISA en Rabat, Marruecos, en una ciudad que encarna el tema de nuestro Foro: *Conociendo las justicias en el Antropoceno*.

Este Foro marca un hito importante en el entretejido pasado, presente y futuro de la ISA, y más particularmente en este 25º año del segundo milenio de nuestro calendario gregoriano (12025 en el calendario holoceno). La ISA fue creada en 1948 como parte de una iniciativa del Departamento de Ciencias Sociales de la UNESCO, que hoy se podría calificar de “diplomacia científica”. Un pequeño grupo de funcionarios técnicos de la UNESCO consideraba que la internacionalización de las ciencias sociales —y de la sociología en particular— tenía un papel fundamental en el mantenimiento de la paz en el mundo posterior a la Segunda Guerra Mundial. Nuestra Asociación se ha desarrollado mediante este intercambio horizontal de conocimientos y la colaboración educativa en todo el mundo. En 2025, por lo visto todavía no estamos en un mundo de posguerra y la necesidad de intercambios horizontales y de reconocimiento de una diversidad de formas de saber aparece aún mayor.

Desde el primer Congreso de la ISA, celebrado en París en 1949, nuestra organización se ha hecho cada vez más internacional. En la actualidad cuenta con más de 6700 miembros de 124 países y cinco continentes. Durante la mayor parte de nuestra historia, el Congreso Mundial de Sociología ha sido el encuentro más esperado por los miembros de la ISA. Pero a raíz de la petición de miembros de los Comités de Investigación, Grupos de Trabajo y Grupos Temáticos de la ISA de reuniones más frecuentes y más tiempo para intercambios entre pares dentro de sus comunidades epistémicas y entre ellas, nació en 2008 el Foro, cuya primera edición se celebró en Barcelona. Desde entonces el Foro ha ido cobrando cada vez más importancia, con la participación este año de casi todos los 68 colectivos en más de 1300 sesiones.

Con esta edición en Rabat, es la primera vez que los miembros de la ISA se reúnen en el Norte de África. Esta situación geográfica privilegiada, en la encrucijada de las civilizaciones mediterránea, árabe y africana, constituye el marco ideal para los intensos debates que tendrán lugar entre cerca de 5000 sociólogos de más de 100 países. También es la primera vez que la ISA acoge un Festival de Cine Sociológico, con películas realizadas por miembros de la Asociación.

Nuestro punto de partida —y de hecho el punto final de esta breve alocución— es el reconocimiento del Antropoceno. Este concepto entró en nuestro vocabulario a principios de este milenio cuando unos geólogos comenzaron a identificar la posibilidad que las prácticas de las sociedades humanas también hayan dejado huellas geológicas irreversibles que impactan en la evolución de nuestro planeta. Algunos críticos opinan que no es un tema para sociólogos —ni siquiera para políticas públicas— pero las cifras antes citadas sugieren lo contrario. En efecto, se trata de una cuestión sobre la que los sociólogos en todo el mundo deben reflexionar y actuar. Necesitamos urgentemente comprender, definir y garantizar la justicia en nuestras sociedades actuales. Para ello, es necesario tomar seriamente en consideración diferentes formas de conocimiento que han sido marginadas, olvidadas o ignoradas a través de una serie de proyectos sociales que pretenden modernizar, neo-liberalizar y “civilizar” nuestros mundos sociales y naturales. Nunca antes ha habido un momento en el que la imaginación sociológica, y la sociología pública, hayan sido más necesarias en las universidades y en las esferas públicas que en esta época que estamos viviendo. Mi sincero deseo es que los debates llevados en Rabat dejen también su huella en nuestras sociedades.

Allison Loconto
Vicepresidenta de la ISA para la Investigación
y Presidenta del 5º Foro de Sociología de la ISA

Welcome message from the Chair of the Local Organizing Committee of the Forum

Let us welcome all participants to the 5th ISA Forum of Sociology in Rabat, on the site of Madinat Al-Irfane, the “City of Knowledge”.

Welcome to all those interested in issues related to the Anthropocene and sociological knowledge and related disciplines, both in Morocco and in Rabat, “city of lights” and cultural capital listed as a UNESCO World Heritage Site. Here you will find a pleasant and peaceful urban setting that encompasses both the *medina* and the modern city. Rabat opens out onto the Atlantic Ocean, offering beautiful spots and beaches, as well as numerous green spaces and urban forests.

Welcome to a land of cultural diversity and natural contrasts, a land of hospitality and conviviality, where all senses must be mobilised to develop and promote the “power of knowledge”, while making the link with universal issues of concern to our societies that mortgage the future of humanity in times when the “knowledge of power” seeks to raise obstacles to research – particularly in the field of humanities and social sciences that we are interested in.

We are delighted to welcome you to a country where leading figures, either native or who have lived here, have left their mark on the ancient and contemporary history of knowledge through their intellectual, scientific and artistic contributions stemming from Morocco. The “Instance Marocaine de Sociologie”, which is hosting you today, invites you to engage with the Moroccan school of sociology, which is committed to promoting knowledge not only in Morocco, but also in the African, Middle Eastern, North African and Mediterranean areas, while contributing to the global debate on the role of the social sciences and humanities in managing the world we live in.

We hope that this Forum will be an opportunity for you to learn more about what has forged Morocco’s pluralistic identity – a country that throughout its history has been a bridge between different geographical and cultural areas and the melting pot of a transnational identity that Moroccans here and abroad proudly bear and strengthen.

We also hope that your stay will provide an opportunity for you to gain scientific knowledge while enjoying the age-old Moroccan way of life, and look forward to a fruitful cooperation with the various host academic bodies.

With a view to scientific solidarity based on sharing, participation, respect for diversity and recognition of otherness, the unifying theme of this 5th Forum “Knowing justice in the Anthropocene” aims to take up the challenge of developing together a shared understanding of justice, by transcending the differences that hinder us from being free and responsible human beings. In the era of the Anthropocene, we are to ensure a viable legacy for future generations, respecting their human rights while freeing them – as much as possible – from the conflictual logic of their ancestors.

مرحبا بكن وبكم في المغرب!

Marhaba bikouna wa bikoum fi al-Maghrib!

Welcome to Morocco!

**Chair of the Local Organizing Committee of the 5th ISA Forum of Sociology
and national coordinator of the ‘Instance Marocaine de Sociologie’**

Message de bienvenue du Président du Comité Local d'Organisation du Forum

Nous souhaitons à toutes et tous les participant(e)s au 5^e Forum de Sociologie de l'ISA la bienvenue à Rabat, sur le site de Madinat Al-Irfane, la Cité du savoir.

Bienvenue à tous ceux et celles qui s'intéressent aux questions liées à l'Anthropocène et au savoir sociologique et à ses disciplines connexes, aussi bien au Maroc qu'à Rabat, ville lumière et capitale culturelle inscrite au patrimoine mondial de l'UNESCO. Nous vous accueillons ici dans un cadre urbain agréable et paisible qui englobe à la fois la médina et la ville moderne. Avec ses beaux sites et ses plages, Rabat s'ouvre également sur l'océan Atlantique, sans oublier ses espaces verts et ses forêts urbaines.

Bienvenue au pays de la diversité culturelle et des contrastes naturels, au pays de l'hospitalité et de la convivialité. Un pays où tous les sens doivent être mobilisés pour développer et promouvoir le « pouvoir du savoir », tout en faisant le lien avec les questions universelles qui inquiètent nos sociétés et hypothèquent l'avenir de l'humanité à un moment où, dans notre monde, le « savoir du pouvoir » cherche à dresser des obstacles à la recherche, notamment dans le champ des sciences humaines et sociales qui nous intéresse.

Nous sommes heureux de vous accueillir dans un pays où des sommités, natives du pays ou qui y ont séjourné, ont marqué l'histoire ancienne et contemporaine de la connaissance par leur contribution intellectuelle, scientifique et artistique à partir du Maroc.

L'Instance Marocaine de Sociologie, qui vous accueille aujourd'hui, vous invite à dialoguer avec l'école marocaine de sociologie, qui œuvre pour la promotion du savoir non seulement au Maroc, mais aussi dans les aires africaine, du Moyen-Orient, d'Afrique du Nord et de la Méditerranée tout en participant au débat mondial sur la place des sciences sociales et humaines dans la gestion de notre univers.

Nous souhaitons que ce Forum soit l'occasion de consolider votre connaissance de ce qui a forgé l'identité du Maroc, un Maroc pluriel qui tout au long de son histoire a été un pont entre diverses aires géographiques et culturelles et le creuset de cette identité transnationale que les Marocains d'ici et d'ailleurs portent et enrichissent avec fierté.

Nous souhaitons également que votre séjour soit l'occasion de vous enrichir scientifiquement et d'appréhender un style du « vivre marocain » millénaire, en même temps que nous espérons une coopération fructueuse avec les différents acteurs académiques hôtes.

Dans le souci d'une solidarité scientifique axée sur le partage et la participation, du respect de la diversité et de la reconnaissance de l'altérité, le thème fédérateur de ce 5^e Forum, « Connaître les justices dans l'Anthropocène », vise à relever le défi d'élaborer ensemble une compréhension partagée de la justice, en transcendant nos différences qui entravent en nous l'être humain libre et responsable. À l'ère de l'Anthropocène, il s'agit ainsi d'assurer un legs viable pour les générations futures, en respectant leurs droits humains tout en les libérant, autant que possible, de la logique conflictuelle des aïeux.

مرحبا بكن ويكم في المغرب!

Marhaba bikouna wa bikoum fi al-Maghrib !

Bienvenue au Maroc !

de l'Instance Marocaine de Sociologie**

Mensaje de bienvenida del Presidente del Comité Organizador Local del Foro

Nos complace dar la bienvenida a todas y todos los participantes en el 5º Foro de Sociología de la ISA en Rabat, en Madinat Al-Irfane, la “Ciudad del Conocimiento”.

Bienvenidos a todas y todos los que se interesan por las cuestiones relacionadas con el Antropoceno y el conocimiento sociológico y sus disciplinas afines, tanto en Marruecos como en Rabat, “Ciudad de la Luz” y Capital Cultural declarada Patrimonio Mundial de la UNESCO. Aquí encontrarán un entorno urbano agradable y tranquilo que abarca tanto la medina como la ciudad moderna. Rabat, abierta al océano Atlántico, ofrece bellos parajes y playas, así como numerosos espacios verdes y bosques urbanos.

Bienvenidos a una tierra de diversidad cultural y contrastes naturales, tierra de hospitalidad y convivencia, en la que es preciso movilizar todos los sentidos para desarrollar y promover el “poder del saber”, estableciendo al mismo tiempo el vínculo con las cuestiones universales que preocupan a nuestras sociedades y hipotecan el futuro de la humanidad en unos tiempos en los que el “saber del poder” busca poner obstáculos a la investigación, sobre todo en el ámbito de las humanidades y las ciencias sociales que nos interesa.

Nos complace darles la bienvenida a un país en el que figuras destacadas, nativas o que han vivido aquí, han dejado su huella en la historia antigua y contemporánea del conocimiento por sus aportaciones intelectuales, científicas y artísticas surgidas en Marruecos.

La “Instance Marocaine de Sociologie”, que les acoge hoy, les invita a entablar un diálogo con la escuela marroquí de sociología, que trabaja para promover el conocimiento no sólo en Marruecos, sino también en las áreas africana, de Oriente Medio, norteafricana y mediterránea, al tiempo que contribuye al debate global sobre el papel de las ciencias sociales y las humanidades en la gestión del mundo en el que vivimos.

Esperamos que este Foro sea una oportunidad de aprender más sobre lo que ha forjado la identidad plural de Marruecos, un país que a lo largo de su historia ha sido un puente entre diferentes áreas geográficas y culturales y el crisol de una identidad transnacional que los marroquíes en Marruecos y en el extranjero llevan y enriquecen con orgullo.

También esperamos que su estancia sea una oportunidad para enriquecer sus conocimientos científicos y descubrir el modo de vida ancestral marroquí, y confiamos en una fructífera cooperación con las distintas entidades académicas anfitrionas.

Con la perspectiva de una solidaridad científica basada en el intercambio, la participación, el respeto de la diversidad y el reconocimiento de la alteridad, el tema unificador de este Vº Foro “Conocer la justicia en el Antropoceno” pretende asumir el reto de desarrollar juntos una comprensión compartida de la justicia, trascendiendo las diferencias que nos impiden ser seres humanos libres y responsables. En la era del Antropoceno, se trata de garantizar un legado viable para las generaciones futuras, respetando sus derechos humanos y, en la medida de lo posible, liberándolas de la lógica conflictiva de sus antepasados.

مرحبا بكن و بكنم في المغرب!

Marhaba bikouna wa bikoum fi al-Maghrib!

¡Bienvenidos y bienvenidas a Marruecos!

Welcome message from the President of Mohammed V University in Rabat

Mohammed V University in Rabat is honored to host the 5th ISA Forum of Sociology, an international event bringing together over 5,000 researchers from 147 countries. Organized in partnership with the International Sociological Association (ISA) and the Instance Marocaine de la Sociologie (IMS), this forum bears witness to our commitment to academic excellence and scientific innovation.

As co-organizer of this major event, Mohammed V University in Rabat is reaffirming its position as an academic leader in Morocco, and far beyond. By offering an exceptional intellectual and logistical framework, our University is demonstrating its ability to support international projects, to encourage the emergence of fruitful scientific debates and to actively contribute to social and environmental transformations.

Under the nodal theme “Knowing Justice in the Anthropocene”, this 5th edition of the Forum invites us to reflect on the critical issues of social and environmental justice in an era of global transformations. More broadly, it raises questions about the role of the social science research community, and its responsibility to provide scientific responses to current challenges, in close connection with the Forum’s theme.

From this point of view, the event seems to hold great promise. It will, as we hope, enhance the contributions of Moroccan researchers to the contemporary sociological field, strengthen the scientific position of our University at the international level, and build fruitful forums for debate and new partnerships.

Beyond its scientific spin-offs, the ISA Forum of Sociology aims to stimulate intercultural exchanges, boost the local economy and strengthen ties between institutions from all over the world. Above all, it points to the challenges of international cooperation, in the context of increasingly global concerns.

I would like to thank all our partners for their trust and invaluable support in organizing this event. Together, we will offer every participant the opportunity to take part in fruitful scientific discussions that will be a source of inspiration and discovery for the entire research community.

Message de bienvenue du Président de l'Université Mohammed V de Rabat

L'Université Mohammed V de Rabat a le grand honneur d'accueillir le 5^e Forum de Sociologie de l'ISA, un événement international qui réunit plus de 5000 chercheuses et chercheurs venant de 147 pays. Organisé en partenariat avec l'Association Internationale de Sociologie (ISA) et l'Instance Marocaine de la Sociologie (IMS), ce forum témoigne de notre engagement pour l'excellence académique et l'innovation scientifique.

En tant qu'institution co-organisatrice de cet événement d'envergure, l'Université Mohammed V ne fait que réaffirmer sa position de leader académique au Maroc, et bien au-delà du pays. En offrant un cadre intellectuel et logistique d'exception, notre Université démontre sa capacité à porter des projets internationaux, à favoriser l'émergence de débats scientifiques féconds et à contribuer activement aux transformations sociales et environnementales.

Sous le thème nodal « Knowing Justice in the Anthropocene » ou « Connaître les justices dans l'Anthropocène », cette 5^e édition du Forum invite à réfléchir sur les enjeux critiques de la justice sociale et environnementale à l'ère des transformations globales. Elle amène plus largement à interroger le rôle de la communauté des chercheuses et des chercheurs en sciences sociales, et sa responsabilité quant aux réponses scientifiques à fournir aux défis actuels, en lien étroit avec la thématique du Forum.

Dans cette perspective, l'événement semble porteur de belles promesses. Il permettra, comme nous le souhaitons, de valoriser les contributions des chercheuses et des chercheurs marocains au champ sociologique contemporain, de renforcer la position scientifique de notre Université au niveau international, ou encore de construire des lieux de débats fructueux et de nouveaux partenariats.

Au-delà de ses retombées scientifiques, le Forum de Sociologie de l'ISA a pour vocation de stimuler les échanges interculturels, de dynamiser l'économie locale et de renforcer les liens entre les institutions du monde entier. Il est surtout révélateur des enjeux de la coopération internationale, dans le cadre de préoccupations de plus en plus globalisées.

Je remercie l'ensemble de nos partenaires pour la confiance et le soutien précieux qu'ils nous ont apportés dans l'organisation de cet événement. Ensemble, nous offrirons à chaque participante et à chaque participant l'opportunité de prendre part à de fécondes discussions scientifiques, sources d'inspiration et de découvertes pour la communauté de recherche tout entière.

Mensaje de bienvenida del Presidente de la Universidad Mohammed V de Rabat

La Universidad Mohammed V de Rabat tiene el gran honor de acoger el 5º Foro de Sociología de la ISA, un encuentro internacional que reúne a más de 5.000 investigadores de 147 países. Organizado en colaboración con la Asociación Internacional de Sociología (ISA) y la Instance Marocaine de la Sociologie (IMS), este foro es testimonio de nuestro compromiso con la excelencia académica y la innovación científica.

Como coorganizadora de este gran evento, la Universidad Mohammed V reafirma su posición de líder académico en Marruecos, y mucho más allá. Al ofrecer un marco intelectual y logístico excepcional, nuestra Universidad demuestra su capacidad para apoyar proyectos internacionales, favorecer la aparición de fructíferos debates científicos y contribuir activamente al cambio social y medioambiental.

Bajo el tema nodal "Conociendo las justicias en el Antropoceno", esta 5ª edición del Foro nos invita a reflexionar sobre las cuestiones críticas de la justicia social y medioambiental en una era de transformaciones globales. En términos más generales, plantea cuestiones sobre el papel de la comunidad de investigadores en ciencias sociales y su responsabilidad a la hora de dar respuestas científicas a los retos actuales, en estrecha relación con el tema del Foro.

Desde esta perspectiva, el evento parece muy prometedor. Como esperamos, pondrá de relieve las contribuciones de los investigadores marroquíes al campo de la sociología contemporánea, reforzará la posición científica de nuestra Universidad a nivel internacional y creará oportunidades para un debate fructífero y nuevas colaboraciones.

Además de sus repercusiones científicas, el Foro de Sociología de la ISA pretende estimular los intercambios interculturales, dinamizar la economía local y reforzar los vínculos entre instituciones de todo el mundo. Sobre todo, pone de manifiesto los retos de la cooperación internacional en el contexto de unas preocupaciones cada vez más globalizadas.

Quisiera agradecer a todos nuestros socios la confianza y el inestimable apoyo que nos han prestado para organizar este acontecimiento. Juntos, podemos ofrecer a cada participante la oportunidad de tomar parte en fructíferos debates científicos que serán fuente de inspiración y descubrimiento para toda la comunidad investigadora.
